NO. 45

## AROUND the TOWNSHIP

Over Newark way last Sunday afternoon the fireeaters turned cannibal and literally ate up the Boosters' Club in a softball game, attended by an entertaining program.

The final score of 28 to 7 tells a large part of the game, but it doesn't show that the firemen shoved across an even dozen runs in a single frame and that the Boosters depleted their pitching staff of five twirlers in as many innings and that 14 of the fire laddies were issued press passports to the initial sack.

How's those interesting statistics in anybody's ball game?

Quite a number of persons have contributed willingly and liberally to the Boy Scouts of America fund with which the activities of the various troops of the township will be carried on during another year.

The canvass for funds is about to close. Still more money is needed, if any semblance of the previous year's program is to be provided.

Anyone who has a few dollars to spare and has not been called upon yet, will find a nice place to put the money when they drop it into the Boy Scout fund.

The local merchant is the backbone of the community and he deserves the buying support of all of the citizens of that community.

This is the message accompanying a movement this week on the part of stores of various types in the township to launch a six weeks' period of stimulated buying.

The windup will be at the Niles Theatre on Tuesday, December 20, when \$200 in cash will be awarded.

There is more reason than ever now why you should buy it in Washington Township.

## WASHINGTON HIGH COUNCIL ATTENDS STANFORD MEETING

CENTERVILLE — The Coordinating Council of Washington Union High School will be represented at a regional conference at Stanford University next Monday afternoon from 2 to 4 o'clock. A report of the work done by the local council during the past year will be made by W. T. Lindsay. Also attending will be Principal A. J. Rathbone and Miss Sibyl Botelho, dean of girls.

Dr. Norman Fenton, director of the California Bureau of Juvenile Research, will preside at the conference. Other councils to participate will be from Alameda, Berkeley, Monterey, Palo Alto, Salinas, San Francisco, Vallejo, San Mateo, Watsonville and other centers.

A summary of the afternoon's discussion will be presented by Kenneth S. Beam, executive secretary of Coordinating Councils, Inc.

## BACHELORS HOSTS TO ART GUILD

NILES — The next meeting of the Arts and Crafts Guild of Washington Township will be held at the Old Adobe at the California Nursery on Friday night, Nov. 18, with the bachelors of the group as hosts.

An exhibition and demonstration of all the crafts will make up the program being arranged by Jolly Batcheller, Donald Spetti, Leslie Lowrey and Kenneth Whan.

## Hospital Branch Organized Nearly Quarter Century

ALVARADO — The 22nd birthday of the Toyon Branch of the Children's Hospital of the East-bay was celebrated at the home of Mrs. August May last Monday.

Officers were elected as follows: Mrs. James R. Whipple, chairman; Mrs. William H. Ford, vice chairman; Miss Mildred Naurert, secretary and Mrs. August May, treasurer.

The Toyon Branch was organized on Oct. 31, 1916, four years after the hospital was established. The first meeting was held at the home of Mrs. J. E. Thane with six present—Mrs. Thane, Mrs. Howard Plummer, Mrs. R. H. Hunt, Miss Edna Sharp, Mrs. James R. Whipple and Mrs. L. B. Sneden. The first year the branch sent \$15 to the hospital. In intervening years from \$200 to \$500 has been sent annually.

Miss Anna Milcent Shinn reported on the board meeting and on the recent rummage sale of which she was chairman. More than \$40 was raised. Miss Shinn suggested a private showing of merchandise for members preceding the public sale next year.

Contributions to the memory fund were reported for the following deceased friends of the branch, Walter Wyatt, Mrs. Hazel Steinhoff and Mrs. R. C. Day.

A donation of \$5 was received from Mrs. J. E. Townsend at Campbell who returned a check sent her for purchase of articles for the grab bag at the last garden party. The grab bag articles were donated by Mrs. Townsend.

The annual luncheon of the hospital association will be in February and the next meeting of the board will be held at the home of Mrs. Oliver on Dec. 12.

## Revise Christmas Pageant For Two December Showings

CENTERVILLE — In answer to many requests, the Christmas pageant given at the Washington Union High School last year will be repeated on Sunday afternoon, Dec. 18, according to Principal A. J. Rathbone.

It is an adaptation by Miss Antoinette Botelho of Henry Van Dyke's "The Other Wise Man." The script is being revised for this year and tryouts for the cast will begin next week.

The script has been borrowed by the John Swett High School at Crockett which will present the pageant on Thursday, Dec. 22.

Two performances will be given this year, one at 5 o'clock and the other at 7:30 o'clock. Doors will be closed five minutes prior to the beginning of the programs and no one will be admitted during the performance.

Incidental music will be furnished by the orchestra and a robed choir. The public is invited and there will be no charge.

## FIREMEN DEFEAT BOOSTERS' CLUB IN BENEFIT GAME

NEWARK — More than 100 tickets were sold for the ball game last Sunday between the Newark fire department and the Boosters' Club. The game resulted in a 28-8 score in favor of the firemen.

George Oliveira was the "victim of the day," and had to have several stitches taken in a laceration of the face suffered when he fell from a truck being used in the Booster Club skit. A fire drill was given under the direction of Chief Joseph Pashote and a first aid demonstration by James Collins.

The Booster Club's share of the profits will be donated to the Boy Scouts.

## MASS AT 11:30 IN WINTER

Corpus Christi Church Niles: Masses every Sunday at 8:30 and 11:30 Decoto; Mass at 10 (2nd Sun. of Month at Decoto mass at 8:30).

CULBERT L. OLSON

## Drama Production Scores Big Hit At Washington High

CENTERVILLE—Elizabeth Lindsay of Niles and Betty Jane Steinhoff of Newark starred in the first dramatic production of the year at the Washington Union High School when "Three Days of Grace" was presented last Friday night to a full house.

Miss Lindsay interpreted the role of the maid and Miss Steinhoff, the cranky old maid of economic tendencies. Their comedy was well done and sustained throughout the three acts of hilarity.

Vermilda DeLuce was effervescent and attractive in the title role and Tom McWhirter did some expert sneezing. Linda Jane Helwig and George Bonde carried the romantic leads.

Others in the cast were Betty Denton, Bill Myrick, Genevieve Andre, Mary Harrold, Delphine Ornellos, Virgil Young, Lawrence Moise, Jack Dutra, John Ziegler, Roland Bendel, Ben Mozzetti and Eugene Correia.

The play was directed by Miss Jean Wilson and music between acts was furnished by the school orchestra directed by Dwight Thornburg.

## Township Court Of Honor To Be Held By Scouting Groups

NEWARK — The Washington Township Court of Honor will be held at the Newark Grammar School next Thursday night, beginning at 7:45 o'clock in connection with the presentation of the charter to the new Newark troop and the investiture of tenderfoot scouts from the township.

The public is invited. Judge Allen G. Norris, district chairman, will preside and the court of honor will be conducted by George Coit. The opening ceremonies will be directed by James Nunes, scoutmaster of the Centerville troop.

Tenderfoot scouts will be invested by the Irvington troop directed by Robert Hunt, scoutmaster. Closing exercises will be under the auspices of the Niles Troop and Scoutmaster Lawrence Pine.

Awards for scouting will be presented along with the charter to the new troop at Newark.

## EUROPE IN COLORS SHOWN TO MEMBERS OF LIONS CLUB

CENTERVILLE — Colored motion pictures made by Dr. Frank F. Baxter of Oakland on a recent trip to Europe were shown at the last meeting of the Centerville Lions Club by Dr. Baxter. Dr. George Holeman was chairman of the evening.

Five calendars from the American Brotherhood for the Blind at Pasadena were bought during the meeting, following the reading of a letter from the Pasadena Lions.

A letter from the Byron Lions invited the local membership to attend the Golden Gate Council meeting at Byron on Nov. 10.

## Taxpayers Vote To Purchase Two Lots At Site Of School

NILES — At a meeting Wednesday night of approximately 40 taxpayers, the board of trustees was empowered to purchase two lots, 50 by 150 feet each, at a price of \$6,000 to provide space for the new \$100,000 Niles Grammar School which will extend 10 or 15 feet beyond the present property.

After a protest from J. C. Shinn that the price was unreasonable and equivalent to \$20,000 an acre while lots in the vicinity were selling for \$500 and \$600 each, approximately 30 voted for the purchase and seven against.

The meeting was opened by Trustee Ben Murphy and E. D. Bristow, principal, was asked to preside as chairman. Miss Celeste Bunker acted as secretary. Mr. Bristow outlined the history of the school building project, starting with condemnation of the present building by state architects because of earthquake hazard, the decision that it would not be feasible to repair the present building and telfing of the passing of the \$100,000 bond issue for a new building. Later the board was able to secure a \$74,000 federal grant.

Joe Gomes, trustee, said that the new land was provided by the federal grant and did not come out of tax money. He said that at the time it was decided to place the new school on the present site, only \$5,000 had been bid for the present property and this was not sufficient to buy acreage in the nine-acre tract offered by J. C. Shinn near the California Nursery for \$1250 an acre.

The \$100,000 bond issue did not provide for purchase of land. The board decided to place the building on the present site after they had been empowered to do so at a mass meeting. When the federal grant was received, plans for the building extended beyond the present property making the additional purchase of land necessary. When asked how the price for the two lots had been established, he said interviews with contractors, real estate men and comparative selling prices of other property had been considered.

## IMPROVEMENT TO HIGH SCHOOL GETS UNDERWAY TUESDAY

CENTERVILLE — Work on a \$59,000 WPA project at the Washington Union High School started Tuesday. This program calls for a lighted soft ball field and bleachers, new garage, remodeling of the music room and draining of the high school grounds.

Work is progressing on the new cafeteria and home economics unit. The new dining room will seat 250.

## Livermore Meets Huskers In Annual Football Rivalry

The only Armistice Day celebration planned for Southern Alameda County will be the annual football game this afternoon between Washington Union High School and Livermore at Livermore for the benefit of the Christmas fund of the Veterans' Hospital at Livermore. The event is sponsored by the American Legion posts of Washington Township and Livermore and the public is invited. The game will begin at 2 o'clock.

The Centerville team remains undefeated in the Santa Clara Valley Athletic League from which it won the championship last year. The last game of the season will be played at Centerville next Friday afternoon with Campbell.

Last Friday at Mountain View, the home team came back with the winning side of an 18-0 score. Boyer scored in the first quarter on a reverse, in the 3rd on a pass from Ahm and in the 4th on a reverse.

Several bus loads of rooters will accompany the team to Livermore this afternoon.

## Resident Engineer Supervises School Construction Here

NILES — Appointment of Wilbur A. Richmond as resident engineer for the Federal Public Works Administration on the new \$174,000 PWA financed Niles Grammar School was announced by Kenneth A. Godwin, regional director.

Construction on the new grammar school, made possible by an outright PWA grant of \$78,000, was started on October 10, and is scheduled for completion on July 22, 1939.

Richmond will bring with him a wide experience gained as engineer on other important undertakings, to aid the local authorities, and the contractors in meeting PWA Administrator Ickes' demands for speed, in order that the community may have the new facility as quickly as possible and so that men will be put to work. "It will be his duty," Director Godwin announced, "to see that the new school is built in accordance with the high standards embodied in the plans and specifications. He will see to it that the quality and quantity of materials being used is in accordance with requirements, that the workmen are paid in accordance with established wage scales, and that they are adequately protected against accidents, as prescribed by PWA regulations."

Haight 1; Merriam 59; Noble 1; Olson 96.  
LIEUTENANT GOVERNOR  
Franklin 66; Patterson 84; Shaffer 3.

CORONER  
Cox 70; Emerson 62.

## Annual Red Cross Roll Call Starts All Over Township

NILES—The annual Red Cross Roll Call begins in Washington Township today under the leadership of Mrs. C. N. Myrick and will continue until Thanksgiving Day.

Due to the fact that Thanksgiving comes early this year there is less than two weeks for the campaign and for this reason all residents of the township are asked to contact the district chairmen and make their contributions instead of waiting for a visit from the workers.

Mrs. Myrick has named the following chairmen:

Niles—Mrs. W. B. Kirk, Mrs. Reginald Calhoun, Clark Griffin, E. D. Bristow, Mrs. Lewis Lewis and Mrs. Rose Vieux. Mrs. Calhoun will be stationed at the post office.

Centerville—Mrs. T. N. Alexander and Miss Bess Dusterberry.

Mission San Jose—Mrs. T. D. Witherly.

Irvington—Mrs. Lee Williams and Mrs. Carl Christensen.

Warm Springs—L. H. Maffey.

Newark—Charles Gillespie and Mrs. Ray Truscott.

Alvarado—Mrs. Ed. A. Richmond.

Decoto—Mrs. A. A. Amaral.

The public is asked to give its full support to the roll call in order that peace-time activities of the Washington Township chapter may be continued.

During the past year the chapter had aided in the establishment of two highway first aid stations—one at Warm Springs and one at Newark.

They have assisted with the dental clinic at the Newark Grammar School and with the home hygiene class for mothers which meets each Thursday afternoon at the Porto Rican Hall in Decoto.

An annual donation of \$50 is made to the Christmas fund for the Veterans Hospital at Livermore.

Last September, Mrs. Myrick, assisted by Mrs. Harvey Braun, Mrs. John Galvin and Mrs. Oscar Walpert sent six Christmas packages to be mailed to the far outposts of Uncle Sam's army.

These packages go to soldiers in hospitals in Guam, the Philippines, Alaska and other distant points, who would otherwise not receive any Christmas remembrance at all. These packages contain writing paper, a diary, needle case, playing cards, cigarette case, a handkerchief, ever-sharp pencil, comb and case, a game and other articles.

## SHINN NAMED ON COUNTY FARM BUREAU DIRECTING BOARD

NILES—Joseph C. Shinn, Jr., president of the Washington-Eden Farm Bureau, has been re-elected a director of the Alameda County Farm Bureau, according to T. O. Morrison, farm advisor.

Other officers are: H. W. Kolb of Dublin, president; George Walder of Castro Valley, first vice president; Henry Kruse of Pleasanton, second vice president; A. E. O'Donnell, Livermore, secretary; R. C. Kennedy, Hayward, treasurer; Walter Block, Livermore, State director; Mrs. Walter Block, Livermore, Farm Home Department chairman.

Directors at large are: Thomas Orloff, Pleasanton; Joseph Thiele, Hayward; Charles H. Langdon, Hayward; John G. Busch, Pleasanton; E. A. Wente, Livermore; Sig Lorentzen, Hayward; Eric Ruus, Hayward; C. A. Rinderspacher, Mount Eden; Joseph Shinn Jr., Niles.

# NATIONAL AFFAIRS

Reviewed by  
**CARTER FIELD**

*Carter Field speculates on the problem that will face the Democrats in picking a presidential candidate, with special reference to the standing of Bennett Clark . . . The Palestine question creates a new division in the ranks of New Dealers, involving Secretary Hull . . . Wallace in battle to save his program.*

WASHINGTON.—A convention situation which would compel President Roosevelt to fight for another nomination to prevent the naming of a man, Bennett Champ Clark, who has opposed the White House on such outstanding issues as the Supreme court bill, the government reorganization bill, and neutrality legislation, is considered very likely by many shrewd political observers here.

The Missouri senator is in a very strong position. He won his renomination by an overwhelming majority. Six years ago he defeated the efforts of Boss Pendergast's K. A. N. S. City machine and won easily. In November a record majority is promised for him, with such normally Republican newspapers as the Kansas City Star preferring him to the G. O. P. nominee.

Senator Clark, who has won his renomination by an overwhelming majority. Six years ago he defeated the efforts of Boss Pendergast's K. A. N. S. City machine and won easily. In November a record majority is promised for him, with such normally Republican newspapers as the Kansas City Star preferring him to the G. O. P. nominee.

As long ago as last winter Sen. Burton K. Wheeler of Montana predicted the probability of Clark's nomination if Roosevelt should fail to score heavily in his purge battle (Clark was one of the nine Democratic senators who opposed the President on the court issue who came up for renomination this year, and every one of them won) and provided also that the President did not take the nomination himself.

Not that Wheeler and Clark always agree on issues, or could be said to belong to the same faction. Far from it. It would be rather difficult to classify Clark in any faction. He is found voting and orating with one group today, and another next week. But, as Wheeler pointed out when he made that year-old prediction, everybody likes Clark. Certainly he has few important enemies.

## Left Wing New Dealers Want No Part of Clark

His nomination, however, would be regarded as little less than tragic by the left wingers in the New Deal. He does not sympathize with their objectives at all. For example, he is strongly against any proposal which would further enlarge the powers of the White House. He is a "reactionary" to most New Dealers and a "liberal" to most conservatives.

There would be a lot of poetic justice in the story if he should be nominated and elected President. Back in the early days of the century practically all liberals and progressives were clamoring for the direct primary for the nomination of senators, governors and presidents. The first convention affected by the preferential presidential primary was that of 1912. Senator Clark's father, Champ Clark, then speaker of the house of representatives, ran in a lot of primaries. He won almost everywhere. Notably he defeated Woodrow Wilson in a series of clashes for popular approval.

The conservatives had not taken the primary idea seriously. For instance, in New Jersey the bosses had not even bothered to enter their choice, so it was won by James E. Martine, by a small vote, despite Martine's utter lack of political strength. The bosses had no thought of paying any attention to the primary, and directed the legislature to name someone else. But Woodrow Wilson, then governor, made the "people's choice" by primary an issue, and forced the election of Martine to the senate. Which incidentally he came to regret later.

But at the Baltimore convention it was a different story. The liberals and progressives fought Champ Clark, the people's choice, tooth and nail, although he had a clear majority of the delegates on ballot after ballot. William Jennings Bryan finally turned the tide to Wilson, making the runner-up in the primaries the victor at the convention. Missouri now thinks the wrong may be righted 28 years later.

## New Division in New Deal Ranks Involves Hull

A new and interesting division has occurred in New Deal ranks in Washington, and for the first time there is the possibility that Secretary of State Cordell Hull may be involved in a real factional dispute. This dispute may involve Hull because it is directly concerned with foreign policy. One group thinks that the United States should take a firm stand against religious and racial persecution, as it considers it,

and should back up Great Britain in Palestine, but insists, and there comes the real point of difference, that Britain should hold Palestine's door open to immigration of persecuted Jews from Europe.

There was not enough difference to be noticeable on this Palestine question until rumors came that Britain was about to make peace with the Arabs on the pledge that no further Jewish immigration would be permitted. Then there were quick repercussions from surprisingly widely separated groups in this country.

Now it so happens that the one criticism which the left wing element of the New Deal has been making of Secretary Hull has to do, in part, with a question of British foreign policy. It has concerned the Spanish civil war, with the left wingers insisting that the so-called neutrality policy of embargo against belligerents actually helped Franco and hurt the Loyalists.

## Hit Hull Over Shoulders Of So-Called 'Career Boys'

Bearing in mind what has happened to everyone who fought Hull in this administration, notably George Peek and Ray Moley, left wingers were a little loath to stick their necks out. So they invariably attempted to fasten all the blame on Sumner Welles, the under secretary of state, and the so-called "career boys" in the department of state, especially as it has always seemed comparatively easy to engage the public against the "spatted teacup balancers," who "ape the British both in accent and clothes." Actually they were hitting at Hull over the career boys' shoulders.

The campaign, nevertheless, has been carried on persistently, the left wingers "leaking" allegedly interesting incidents of how the wool was being pulled over Hull's eyes to their favorite newspaper writers, and always with Sir Ronald Lindsay, the British ambassador, as the master mind in the strategy, and the teacup balancers the eager stooges.

## Secretary Wallace Fights To Save His Farm Program

Secretary of Agriculture Henry A. Wallace is not only battling to save his farm program in his stumping tour to persuade the Middle-Western farmers that AAA is fine and everything will be all right when controlled production really gets into operation; he is fighting to make it possible for some New Dealer to win the presidency next time without the third-term handicap.

Careful study of the election situation by experts forces the conclusion that unless Wallace can vindicate himself and his farm program it will be absolutely necessary for President Roosevelt to take a third nomination—unless he's willing to accept Secretary of State Cordell Hull as a compromise or else permit the Democratic party to name a Garner, a Byrd, a Jesse Jones or someone else who can get the backing of Democrats hostile to the Roosevelt economic policies.

This situation is partly due to the complete failure of the New Dealers to win any state primaries where a strong organization opposed them. Part of it is due to the fact that the magnificent political machine constructed by Jim Farley cannot be controlled by the Corcoran - Cohen - Ickes-Hopkins wing of the party. More important, however, is the fact that no one is even running in the election this year whose victory would boost the chances of any 100 per cent New Dealer for the presidential nomination with the single exception of Sen. Alben W. Barkley in Kentucky. And Barkley, to the conservative Democrats and many idealistic New Dealers, is anathema since the odors of the WPA campaign machinery grew so objectionable last spring.

## Senator Sheppard Busy 'Mowing Barkley Down'

Hitherto a regular and almost humble follower of the national Democratic leadership, no matter who was in the driver's seat, Sen. Morris Sheppard of Texas is "mowing Barkley down" by his activities as chairman of the campaign expenditures investigating committee. The senate won't get sufficiently worked up over the report Sheppard is writing (with some special investigators still working) to refuse Barkley permission to retain his senate seat. But on the other hand no one thinks, from the set of Sheppard's jaw, that Barkley will look like presidential timber after Sheppard is finished with him.

Wallace alone of the real New Dealers remains unsmearred, if one eliminates those who simply lack political sex appeal, as for example Harold L. Ickes, Harry L. Hopkins, Robert H. Jackson. Wallace's weakness is the low price of farm staples after six years of operation. His alibi is, of course, that the Supreme court kicked out AAA and left him for two years minus a crop-control program.

# Undiscouraged by 22-Year Battle, Tom Mooney Again Seeks Freedom

Unaided by Court Appeal, San Quentin's Celebrity Turns to Politics

By JOSEPH W. LaBINE

A month ago, California's Gov. Frank F. Merriam received a telegram from the most distinguished prisoner in his San Quentin penitentiary: Thomas J. Mooney, who landed in jail under life sentence for participation in San Francisco's 1916 Preparedness day bombing.

Said the telegram: "You have resorted to the time-worn political subterfuge of declining to act (on my plea for pardon) on the grounds that the case is pending in the courts. You are hereby duly notified by me that all court actions on my behalf are now concluded and no other actions are contemplated, and I now not only insist but demand that this outrageous procrastination be ended."

Few prisoners would be in a position to "insist" or "demand," but Tom Mooney has been doing it something like 20 years. His latest ultimatum followed refusal by the United States Supreme court to review the case, but it did not mean that Mooney is disheartened. Instead his hopes now rise higher than ever, first, because the Supreme court has granted Mooney the right to apply for an original writ of habeas corpus; and second, because California Democrats nominated one Cuthbert Olson for governor. Although Mr. Olson did not touch the Mooney dynamite keg during his campaign, he delivered a fiery two-hour plea for Mooney before the legislature last winter. As governor, he might grant what no California chief executive since 1916 has dared grant—a pardon.

## Another Dreyfus Case?

Tom Mooney's case, which his sympathizers can compare only with the infamous French Dreyfus injustice, has given certain labor elements and radical groups a cause celebre for 20 years. His story opens with the parade which San Francisco's solid citizens engineered July 22, 1916, in protest against President Wilson's "too proud to fight" attitude. As the parade passed Steuart and Market streets, a bomb exploded and killed 10 people, injuring 50. Tom Mooney has since offered alleged photographic proof that he and Mrs. Mooney were watching the parade from a roof, a mile distant, when the explosion occurred. But he and Warren K. Billings, then a 23-year-old rabid red, were convicted and sentenced to hang. A year later, Gov. W. D. Stephens granted President Wilson's plea for commutation to life sentence. Since then Tom Mooney has been a well-publicized martyr; Warren K. Billings has rested comfortably at Folsom state prison, vanishing into oblivion.

In Tom Mooney's favor it may be stated that two of the four witnesses whose testimony convicted him have since repudiated their statements. One, an Oregon cattleman named Frank G. Oxman who claimed to have seen Billings and Mooney at the explosion site, admitted later that he was miles away. John MacDonald, a circus roustabout who testified he saw Mooney and Billings plant the bomb, has likewise backed down. The judge who sentenced him, the jury that convicted him and a series of San Francisco district attorneys have all declared Mooney was railroaded to prison.

So why has he not been freed? Partly because California had just reason to dislike the radical labor element Tom Mooney represented back in 1916. Also because Californians believe the Tom Mooney of 1938 is a dangerous radical who somehow enjoys his role of martyr.

—because a pardon for Tom Mooney would be tantamount to admitting California's guilt in miscarrying justice.

## Labors in Doghouse

Though Mooney may have a grievance, he is not the knight-on-a-white-horse he pretends to be. As a labor leader trying to make San Francisco streetcar men strike, he jumped into the picture right after the pro-labor McNamara brothers admitted bombing the Los Angeles Times. Not only was he pro-labor, but Mooney also had left-wing radical tendencies. His friend Billings took childish delight in playing with dynamite and was adept at throwing varnish remover on automobiles. These men, thought California, were dangerous to have around. Nor has California changed its mind.

The drum-beating of 20 years leaves things substantially the same. "Free Mooney" has been a standard policy of the American Federation of Labor and other respectable citizens, but the loudest drum-beaters have been Communists. This has not helped the cause, nor has Mooney helped himself by weeping martyr-like before whatever news photographer happened to be within eyeshot.

But if the American people could vote on the "Free Mooney" issue, it is likely that he would emerge from prison tomorrow, a free man. An interesting, but not unexpected phenomenon is that Democrats are as a whole more sympathetic than Republicans. California has thrived without a Democratic governor since the 1880s, but as this is written it is quite likely that a precedent will be set by Cuthbert Olson.

## Interference Resented

Californians have also thrived—thank you—without the unskilled interference of outsiders in behalf of Tom Mooney. In 1931 they looked down their sun-tanned noses at New York's Mayor James J. Walker, who came west to plead with Gov. James Rolph for clemency. They suggested politely that Mr. Walker might have remained at home to look after two odoriferous investigations then under way in his own bailiwick.

They felt the same way last year when Minnesota's Farmer-Labor Gov. Elmer A. Benson came to San Francisco and suggested that "a united labor movement" could achieve freedom for Mooney and Billings.

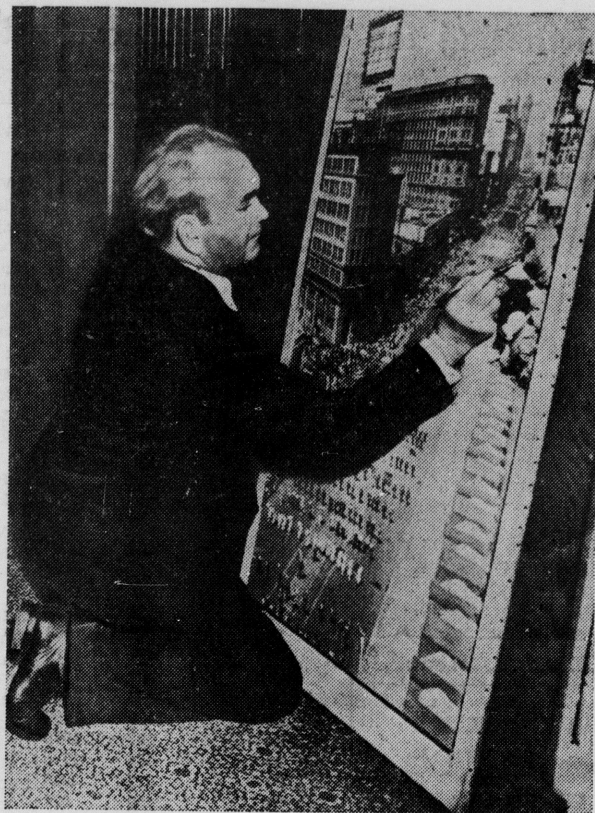

"A united labor movement could not only open for them the prison gates," he pontificated "but it could see to it that, in the future, those who dedicate their lives to the service of humanity do not meet the same fate that was Tom Mooney's."

California's courts have washed their hands of the mess via A. E. Shaw, special referee for the state supreme judiciary, who summed up the state's official attitude and its open resentment regarding the Prisoner of San Quentin:

"It is established by the preponderance of evidence that the petitioner (Mooney) was not a victim of a frame-up nor was he convicted as the result of any improper act of any kind on the part of the district attorney or any of his assistants, or on the part of any person representing the State of California."

Will Cuthbert Olson think otherwise? Tom Mooney hopes so.

# IT'S PETTY CLUES THAT LEAD G-MEN ON CROOKS' TRAIL

Details of Mannerism Catalogued by FBI; Speech Defects Trap Them.

WASHINGTON.—It's the trivial things—the little clues—that catch the crooks.

"It may be a professional secret," confided one high-ranking G-man, who asked that his name be withheld, "but just one insignificant detail overlooked by a fugitive may give us the break we need."

Identification of bank robbers is easier today than in other years, because federal agents need only question witnesses closely, then thumb through their "modus operandi" file. The file describes minutely how every known bank robber looks, talks and walks. It shows what kind of cigarettes he smokes, what he usually wears and how he speaks, fast or slowly, excitedly or quietly, in falsetto or bass. Suspects' pictures are jerked from the files, shown to witnesses—and the search is on.

Broadcast Description. "One thing is sure," continued the G-man. "A fugitive from the FBI keeps moving. He has to. Underworld friends are afraid to hide him when they learn that G-man heat has been turned on. They'll feed him, maybe, for a good price, but they'll make him move on."

Federal agents have a method of their own for catching up with fleeing bank robbers. First they mail to every law enforcement agency in the nation an official "identification order" bearing the fugitive's fingerprints, photograph, and as minute a description as they have available. Then, if he is a major offender, they will send his picture and description to newspapers and magazines throughout the area where he is believed in hiding.

## Oddities Listed.

A man may be the cleverest bank robber, kidnaper or extortionist outside of Alcatraz, but if he has some little peculiarity of speech, a propensity for loud talking, an unusual scar or some other distinguishing characteristic his arrest usually is only a matter of time.

Justice department files list hundreds of oddities which officials are confident will be the undoing ultimately of many criminals in hiding. Margaret Allen, a girl bank bandit who escaped from the city workhouse at Cincinnati, May 29, "uses profanity profusely," suggests her identification order, "and whistles like a bobwhite quail to attract attention."

Hugh Grant, recently-captured Florida desperado, was easily recognizable because he couldn't refrain from smiling.

Speech is important, too. Rudolph Flick Jr., a probation violator and former pugilist, talks freely of boxing. Raymond D. Kramer, fugitive from a West Virginia murder charge, is another loud talker. He is "boisterous" and "very bold," his identification card discloses.

## Baby Raps Dad on Head; Proves Invention Works

AKRON, OHIO.—When 16-month-old Richard Morgan bopped his papa on the head with a stick, the father felt the joys of invention. Not that the inventive business is strictly a headache, nor that the bopping set the inventive wheels to turning in father's head—the clout merely meant that M. B. Morgan's design of a safety cap for baseball players and other sportsmen was a success.

Morgan doesn't remember just what gave him the idea, but a few hours after the inspiration came he invented a cap. "It looks exactly like a baseball cap, cloth top and all," Morgan pointed out. "Inside is a steel cup fitting over the head and inside the cup is a rubber shock absorber."

When he completed it, Morgan put it on, placed a stick in Richard's hands and aimed his head toward the child. Richard got the idea. "It didn't hurt at all," Morgan said.

The inventor thinks there ought to be many uses for the headgear—for baseball, polo, hockey, hunting and any other sport where a man's head is likely to get in the way.

## Soft-Spoken Thief Tells How He Goes About Work

DALLAS, TEXAS.—If you wonder just what a burglar does if his victim wakes up, Detective Lieutenant Luther Phillips has the answer—straight from an expert at house-breaking. "Sometimes I drop something by accident," the burglar told Phillips, "and somebody sits up in bed. They always say: 'Who's there?' I keep my voice calm and soothing and say 'It's just me.' Then they'll always say 'okay.' and go back to sleep."

## Sons Force 83-Year-Old Iceman to Quit Route

CLEVELAND.—George Myer, 83-year-old iceman who wanted to peddle ice until he was 90, hung up his tongs and admitted that he "guessed he was through."

The old man had delivered ice for more than 50 years, and had never been sick or missed a day. He quit, not because he couldn't hustle a big piece of ice "as well as any of these college football fellers," but because his sons insisted he was too old.

# CLASSIFIED DEPARTMENT

## PHOTOGRAPHY

Learn how to win friends and influence people. 2 exquisite professional enlargements and 8 guaranteed prints 25c—24-hour service. Amazing premiums. Cline-Color of Hollywood, Box 375, Hollywood, Calif.

## OPPORTUNITY

Restaurant and Hotel Owners increase your business. For particulars write H. V. HELLBERG, Marshalltown, Iowa.

## HOUSEHOLD QUESTIONS

Broken Glass.—Use a wet cloth or dampened absorbent cotton to pick up broken glass. Even the tiniest bits will adhere to it. For safety, discard cloth and all.

Vinegar Cures Rust.—Don't waste time trying to clean rusty articles with emery paper! Place them in a jar of ordinary vinegar, leave for a couple of days, and you will find that they are quite free from rust.

Mending the Wringer.—If a crack appears in the rubber roller of your wringer, bind the cracked part tightly with adhesive tape. It stops the crack from spreading and it does not come off.

Repelling Mice.—The smell of peppermint is most obnoxious to mice. A little oil of peppermint placed about their haunts will soon make them look for other quarters.

Care of Book.—Never bend a book backward to keep it open. That weakens the back strap so that the leaves will fall out. Use a book mark or put a small weight on one corner of the book to keep it open.

## A Three Days' Cough Is Your Danger Signal

No matter how many medicines you have tried for your common cough, chest cold, or bronchial irritation, you may get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with any remedy less potent than Creomulsion, which goes right to the seat of the trouble and aids nature to soothe and heal the inflamed mucous membranes and to loosen and expel germ-laden phlegm. Even if other remedies have failed, don't be discouraged, try Creomulsion. Your druggist is authorized to refund your money if you are not thoroughly satisfied with the benefits obtained. Creomulsion is one word, ask for it plainly, see that the name on the bottle is Creomulsion, and you'll get the genuine product and the relief you want. (Adv.)

## With a Purpose

Be not simply good, be good for something.

## How Women in Their 40's Can Attract Men

Here's good advice for a woman during her change (usually from 38 to 42), who fears she'll lose her appeal to men, who worries about hot flashes, loss of pep, dizzy spells, upset nerves and moody spells. Get more fresh air, 8 hrs. sleep and if you need a good general system tonic take Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps Nature build up physical resistance, makes the feet more vivacious to enjoy life and assist calming jittery nerves and disturbing symptoms that often accompany change of life. WELL WORTH TRYING!

## Serving a Feast

A cheerful look makes a dish a feast.—Herbert.

## LOST YOUR PEP?

Here is Amazing Relief for Conditions Due to Sluggish Bowels. If you think all laxatives are alike, just try this all vegetable laxative. It is gentle, refreshing, invigorating. Dependable relief from sick headaches, bilious spells, tired feeling when associated with constipation. Without Risk. Get a 25c box of N.R. from your druggist. If not delighted, return the box to us. We will refund the purchase price. That's fair. Get N.R. Tablets today.

ALWAYS CARRY WITH YOU N.R. TABLETS FOR QUICK RELIEF FOR ACID INDIGESTION

WNU-12 45-38

## Watch Your Kidneys!

Help Them Cleanse the Blood of Harmful Body Wastes

Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body machinery. Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder may be burning, scanty or too frequent urination. There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

## DOAN'S PILLS

## DEAD SURE

By CARLTON JAMES  
© Associated Newspapers.  
WNU Service.

"AIN'T I always told you," bellowed Lieut. Pat Cassidy, "never to accuse no one of a crime till you was sure you had 'em dead to rights? Ain't I?"

Belligerently he thrust forward his jaw and glowered at young Jerry Tomlinson, detective. He was a huge hulk of a man, this young Tomlinson, with a square jaw and a squashed-in nose—the type of man whose picture mothers might use to frighten their children.

But just now the habitual arrogant gleam had left his eyes. He shifted uneasily from one big foot to the other.

He blushed. Actually blushed.

"But, listen, Pat," he argued, "we have got this jigger dead to rights. His fingerprints prove it."

Lieutenant Pat interrupted with a throaty sound that resembled the croaking of a frog, adding emphasis with a fierce wave of his hand.

"Pup!" he said. "Young pup! Tell in me I'm wrong!"

He thrust a finger not ungently into Big Jerry's stomach, and for a moment Big Jerry's eyes gleamed.

"Listen, this here police department is in bad enough with John J. Public without arrestin' an innocent man. Morey didn't shoot J. T. Roberts any more'n I did."

Big Jerry opened his mouth to reply, but was forestalled by the voice of Mr. Morey himself.

For the past 15 minutes Mr. Morey had been sitting in a corner of the lieutenant's office listening patiently while the two policemen argued over the justification of his arrest.

He was a mild-mannered man, this Morey, with bone-rimmed glasses. There were handcuffs on his wrists.

"I beg your pardon," he said apologetically, and smiled in rather a dry manner. "I'm inclined to side with the lieutenant. Indeed, what the lieutenant says is the very thing of which I tried to convince my friend here, Mr. Tomlinson."

Just here Mr. Morey paused and favored Big Jerry with another of his dry smiles. "And now," he went on, "if you don't mind I'd like these handcuffs removed and I'd like also to go home."

"Oh, you would?" Pat's visage lost none of its belligerence when he turned to face the prisoner. "Oh, you would?" he repeated. "Well, we ain't through with you yet, Morey. In fact, we ain't got started. You go over there and sit down till you're wanted."

Big Jerry grinned broadly.

"Now, that," he said, "is sense. I knew you'd come to my way of thinking. I—"

"Your way, nuts! I told you Morey didn't shoot J. T. Roberts, and I meant it."

"Say, are you crazy?"

Big Jerry looked bewildered.

"All right," he said. "I get it. Want me to show how I know, eh. O. K. I'll admit I was green, but this was dead open and shut. Now get this: In the first place we found Morey's fingerprints on the gun. In the second place the M. D. gave us the bullet he dug out of Roberts' arm, and we know it came from the gun on which we found Morey's fingerprints. In the third place, Morey admits having quarreled with Roberts, and in the fourth place Roberts returned to consciousness long enough to tell us that Morey attacked him. Need any more proof?"

"Plenty, you feathert!"

Pat bit off the end of a cigar.

"So with that evidence you went right over and arrested Morey and charged him with shooting Roberts?"

"What would you have done?" Big Jerry asked, and his voice was sarcastic.

"Me?" said Pat. "Me? Why, I would have got more evidence, investigated things further. That's how I happened to get this lieutenant's job, pup—by making sure."

He set fire to his cigar and appeared not to notice the gleam in Big Jerry's eyes.

"Now then," he went on, "let's get this thing settled an' maybe learn you something. How about the fingerprints? Was there any others on the gun besides Morey's?"

Big Jerry gestured impatiently. You could see he was fast losing his temper.

"Yeah, Mr. Wiseguy. There were other prints. Roberts'. He owned the gun."

"O. K. Now how about Roberts? Was there any other wounds on him besides the bullet hole?"

Big Jerry sighed.

"There was a bump on his head," he admitted. "It got there when he fell against the desk after being shot. The doc said so."

"Oh, the doc said so, eh?"

Pat chewed his cigar and eyed his inferior with his head held back to keep the smoke from his eyes. His thumbs were hooked in the armholes of his vest.

Tomlinson thought there was a wholly supercilious expression on his face.

"Yeah," Big Jerry snapped. "The doc said so."

"O. K." Cassidy removed the cigar from his mouth and sat down at the desk against which he had been leaning.

His manner underwent a change. He folded his arms atop the desk

and looked at Big Jerry, but the belligerence had gone from his face and when he spoke his voice was no longer taunting or condemning.

"Listen, Jerry," he said, "you're new at the game and this time I'm going to show you where you're wrong. However, hereafter remember to obey orders. I mean, make sure of your ground. Dead sure."

He paused, picked up his cigar.

"Morey's the man you want, all right. But you arrested him for the wrong reason. I knew you were working on the case, so I made an investigation on my own hook, and checked up."

Big Jerry became uneasy again.

"Well, it looked to me—"

"Sure, Sure. I know how it looked to you. But the fact remains you were wrong. Now get this: Morey attacked Roberts. That much you got straight. Roberts was sitting at his desk at the time. When he saw Morey coming for him he reached into a drawer and produced the revolver. (Incidentally, Roberts' fingerprints were as fresh as those of Morey.) Seeing what was about to happen, Morey made a dive for him. They grappled, and in the scuffle the gun went off and the bullet went into Roberts' arm."

"It didn't put him out, however, although he dropped the gun. Morey picked it up and when Roberts made another move toward his desk drawer, Morey, thinking his opponent was going after another gun, leaped forward again. You see, Morey didn't have the guts to plug Roberts, so he socked him over the head with the butt of the revolver he had in his hand. But he didn't shoot him."

Big Jerry opened his mouth in a manner that suggested blank astonishment.

He might have spoken, but Lieutenant Pat added:

"Now don't try to argue. I've confirmed all this with Roberts, who has completely recovered consciousness and checked my account of what happened."

Big Jerry swallowed and said: "Yeah? Well, how did you know?"

"I? How did I know? Well, Jerry, I was careful, that's all." He picked up the sheets of fingerprints that lay on the desk. "See these," he said. "Fingerprints. Morey's. The ones we took from the gun. Study 'em. Compare 'em with the pictures. Look carefully, and what'll you find? You'll find that Morey's fingerprints were upside down and found only on the muzzle of the gun. You see, when he picked it up he had it by the muzzle, and when he slugged Roberts he had it by the muzzle also. You can't shoot a man with a gun while you're holding it in your hand by the muzzle."

Big Jerry opened his mouth in a manner that suggested blank astonishment.

He might have spoken, but Lieutenant Pat added:

"Now don't try to argue. I've confirmed all this with Roberts, who has completely recovered consciousness and checked my account of what happened."

Big Jerry swallowed and said: "Yeah? Well, how did you know?"

## Cat Mothers Rabbits, Squirrels and Rodent

CLEBURNE, TEXAS. — Cat fanciers who have reported from time to time the strange "babies" adopted by their mother cats can take a back seat now. Cecilia, Miss Edna Earl Moore's tabby, can top them all. Cecilia has three kittens of her own, but that is the least of her litter. She also has one young rat, two baby rabbits and two ground squirrels.

## FIND GOLD LADEN SHIPS ON SEA BED

Part of Fleet of Galleons Lost 300 Years Ago.

NEW YORK.—Two Spanish galleons, part of a fleet of treasure ships wrecked more than 300 years ago, have been found on the sea bottom in a coral forest off the northern coast of Dominican republic. This announcement was made by Capt. John D. Craig, deep sea photographer and explorer, on his return from a scientific expedition sponsored by a Beloit college of Beloit, Wis.

As Craig reconstructed the story, 16 galleons, escorted by battle frigates, were sailing to Spain in 1632 with raw gold, silver, gold and silver plate and coins. A hurricane forced the treasure ships into the coral atolls known as Silver Bank, about 35 miles north of Cape Frances Viejo.

Treasure Worth 70 Millions.

Many attempts have been made to reach the free salvage, estimated to be worth more than \$70,000,000. About \$3,500,000 of the treasure is said to have been retrieved. Captain Craig explained, however, that his expedition was a scientific study of the coral formation and that no effort was made to salvage the valuable cargo.

In 1850, Captain Craig related, a Boston explorer named Greene found the coral forests and wrote a report of his findings, including the discovery that coral had grown over the ships. Captain Craig's expedition was carried out to verify the record left by Greene, he said, which was found in the library of Beloit college.

The Dominican government co-operated with the Craig expedition, supplying a plane and two coast guard boats. Captain Craig said his party spent about three months in the vicinity, completing an aerial survey and exposing under water about 8,000 feet of motion picture film, 3,000 of which was done in color.

One galleon was found about 65 feet below the surface and the other in about 20 feet of water. They were identified only by chains, anchors and cannon, all encrusted with coral.

## Student Saves Plane as Pilot 'Freezes' at Stick

GREENSBURG, PA. — Milburn Gergely, 16-year-old student pilot, leaned forward from the rear seat of a two-seater plane flying two miles above this Westmoreland county town and gasped.

The pilot, Alfred Nison, a farmer, was slumped in his seat, his hands "frozen" on the controls of the ship, which already was plunging toward the earth at a sickening speed. He had been overcome by gasoline fumes.

Realizing the plane was likely to go into a fatal tailspin, Gergely seized a utility wrench in his own glass-enclosed cockpit, lifted the hood above his own seat and stood up in the face of a wind velocity that nearly threw him from the plane. He smashed the glass enclosure above Nison's seat, reached in, jerked out the control stick and put it in the back socket.

Then, he settled back in his own seat and brought the plane under control, gliding down to a safe landing a few minutes later. The plane was undamaged. Nison regained consciousness just as the plane landed.

## Cat Loses Nerve, Causes Crisis in Neighborhood

AMARILLO, TEXAS.—Mrs. Maggie McCarley's cat, Spotty, had a proud reputation as the only cat in the block that wasn't afraid of a bulldog, but a wire-haired terrier wrecked Spotty's reputation and caused a minor crisis in the neighborhood.

Spotty took flight before the terrier and ended up on top of a 45-foot utility pole. A few hours later, the cat's frightened calls brought a crowd. Neighbors called in the fire department, but there was no room to raise a ladder.

The utility company was notified, and at the end of 28 hours, Spotty came down, quivering in the arms of a lineman.

## Lost Ring Found

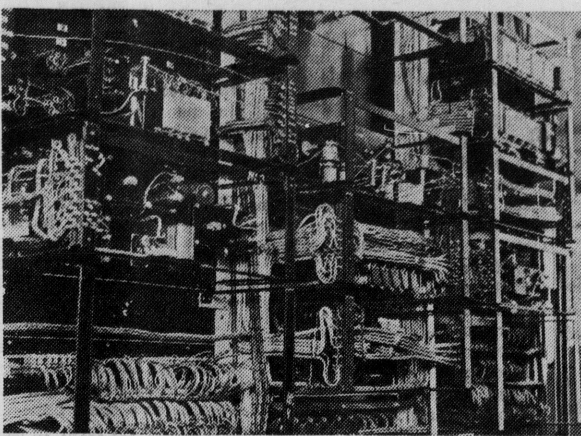

NORTH BROOKVILLE, ME.—While sowing oats in 1910, Brooks W. Grindle lost a graduation ring he had worn since 1886. Recently while working in the same field, he turned up the long missing ring.

## Hitch Hikers Protected

GAINESVILLE, FLA.—The University of Florida safeguards its hitchhiking students. Safety zones have been put into effect for students thumbing rides between the campus and the city.

## WIRED MAGIC . . .

● The telephone on your desk is within reach of 32,000,000 other transmitters. Wires carry pictures, news, even radio!

Behind every telephone switchboard is a confusion of wires and cables, each serving a definite purpose in modern high speed communication.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

IF YOU stand at one end of a football field and shout, your voice will travel to the other end, 300 feet away, in about one-third of a second. But your voice, traveling by telephone, would take less than one-third of a second to travel all the way around the earth.

The electrical waves that are created when you speak into a telephone transmitter have in effect increased the speed of sound nearly 400,000 times.

You can telephone around the world, moreover, without even raising your voice, whereas it takes a good loud shout to be heard even the length of a 300-foot field.

Today, however, even a man with a bad cold can "shout" across an ocean, and the telephone enables him to do it with as much power as if all the millions of people in the United States were standing on the beach and shouting with him.

That is the estimated amount of power given to a single human voice by the amplifiers that launch transatlantic radio telephone conversations out on the air lanes overseas.

Even though it takes the energy of a nation's lung-power to "shout" across the ocean, ears of superhuman keenness are needed to hear even so tremendous a noise when it arrives. For the large amount that starts across the ocean dwindles, after traveling 3,000 miles by radio, to no more than the energy that would fall upon your outspread hands from the north star.

## Long Distance Wooing

A man may whisper into a telephone in Washington, and be heard in San Francisco. From London you may say to a girl in Cleveland, "Will you marry me?" and hear her say "Yes" as easily as if she sat beside you in the moonlight. A suitor in London really did propose that way to a girl in Cleveland, and won her, too, though he had to talk half an hour!

Radio telephone connections from the United States bridge enormous distances. The circuit to Australia, for example, consists of a radio channel across the Atlantic, linked with another from London that jumps eastward to Sydney, a distance of 10,600 miles.

The longest telephone call you could make from any point in the United States would be from Bay, Calif., to Adelaide, Australia, via New York and London, about 18,000 miles.

## Business by Telephone

A manufacturer in Ohio tooted his new two-chime automobile horn over the transatlantic telephone to a prospective customer in England, and landed a big order. A buyer for a New York store who never has been outside the United States makes purchases in half a dozen European countries in a single day.

In the United States, most telephone-minded of all countries, 85,000 every day telephone conversations take place every day. This means, with two people to each conversation, that the daily number of talkers is far greater than the nation's population.

"Out of reach of a telephone" is almost unheard of in this country, with 19,100,000 instruments, or one for every seven people. Of a total of 38,000,000 telephones in the entire world, half are in the United States.

New York city alone has more telephones than all France with a population of nearly 42,000,000. Chicago has more than South America. On a round desk at the overseas switchboard in New York city are 80 telephone directories from all over the world, in every well-known language, but in appearance very much like the familiar American telephone book—fat ones for London, Paris, Berlin, Tokyo; thinner ones for Rome, Havana, Dublin, Madrid; some, such as those of the Netherlands and Switzerland, containing all the telephone numbers of a nation in a volume or two.

The telephone systems of some 70

countries now are connected by wire or radio to the telephone in your own home. You can telephone to Iceland's icy mountains (but not to Greenland's yet) or India's coral strand, to Chile or Costa Rica, to Palestine or Panama, or Japan.

## Radio by Telephone

But conversations are only part of the traffic the telephone wires carry. Few people, perhaps, listening to nationally broadcast radio programs, realize that a large proportion of their radio entertainment comes to them over telephone wires.

Only for a comparatively few miles from the nearest broadcasting station do network programs travel through the air, whereas they may have sped nearly 3,000 miles over a telephone wire before taking to the air at all.

News of nation and world that you read in your favorite newspaper likewise comes over telephone wires—carried not by human speech, but by electrical impulses that flash over the wires and with ghostly, unseen fingers type their message on a keyboardless typewriter at the receiving end, more accurately than many a human stenographer. Such is the press teletype, which delivers news, most perishable of all commodities, instantaneously to market. News photographs, too, are sent over telephone wires.

The police teletype flashes news of crime over telephone wires to officers of an entire state and whole groups of states linked in single systems. The largest now includes New York, New Jersey, Connecticut,

and New Hampshire. It is a network of wires that carries the news of the day, the news of the hour, the news of the minute.

Even though it takes the energy of a nation's lung-power to "shout" across the ocean, ears of superhuman keenness are needed to hear even so tremendous a noise when it arrives. For the large amount that starts across the ocean dwindles, after traveling 3,000 miles by radio, to no more than the energy that would fall upon your outspread hands from the north star.

## HEALTH

● Second growth tonsils sometimes cause serious trouble, science finds.

—By Dr. James W. Barton—

A PATIENT consulted his physician about a sore throat. The physician informed him that it was his tonsils that were likely causing the symptoms. The patient smiled and stated that if it were his tonsils he must have grown another pair as he had had his tonsils removed when he was 10 years old.

The physician made no reply but he knew that the tonsils had not been completely removed at that age or they would not have returned. When tonsils are removed at an earlier age than six years, our throat specialists tell us that they may sometimes return.

There are many patients with arthritis who have their teeth carefully examined by X-ray and other methods who never think of their tonsils being the cause because

they had their tonsils removed in childhood. They admit that they have remnants of tonsils, or tags, still present in the throat, and also that they sometimes have a sore throat but there is such a small piece or pieces of the tonsils left that they could not possibly cause the arthritis or rheumatism.

In speaking of these "secondary" tonsils or tonsil stumps, Dr. Paul H. Browning, New York, in Medical Clinics of North America, states that they are one of the most vicious types of all infected tonsils in producing inflammation in joints and muscles at

### ARMISTICE DAY 1938

When faces turn east toward Flanders' fields this Armistice Day, they will look out upon a world that has fought much, suffered much, and learned little, since the big guns ceased firing in the Rhineland.

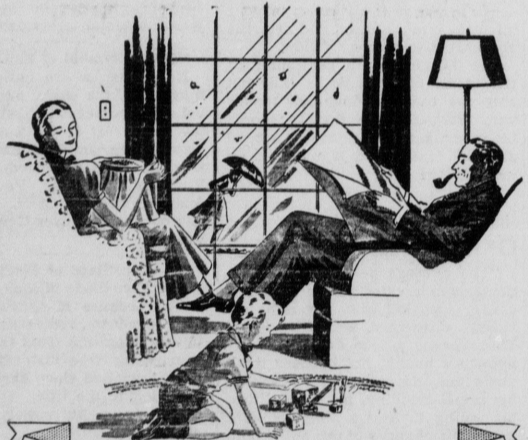

The first years that followed the jubilant day when a "Cease firing!" order carried its electrifying message round the earth seemed, indeed, to hold a promise of enduring peace for a war-sickened world.

But who can say as much today, with the furnaces of munitions plants casting their ruddy glare across virtually every nation as if mocking the will of all peoples toward peace? And with the most utterly vanquished nation in that struggle 20 years ago now become the virtual lord and master of a continent, while a great power of the Orient successfully threatens to subdue another continent by violence?

Yet if America sees the war spirit mobilizing elsewhere and, while safeguarding herself with rearmament, chooses to keep herself disentangled, it is because she hates war, not fears it! A titanic struggle that took from the world 23 million lives, made refugees of 10 million, and orphaned 9 million, indicts itself as mankind's most terrible enemy and well merits that hate.

That the valiant men America honors this day fought only to win the world enduring freedom from the bondage of war gods, entitles them to our high regard. The world needs no better ideal than theirs. Could the world learn to sacrifice for peace as boldly as they sacrificed for war, the shadow of future Armageddons need never darken another Armistice Day!

## YOU are invited to join the EASY CHAIR LEAGUE

THOUSANDS OF MEMBERS throughout northern and central California certify that the Easy Chair League of Gas Heating has brought them and their families comfort and happiness and ease of mind like a priceless possession.

**BENEFITS ARE MANY.** All winter through, modern Gas Heat has brought comforting warmth like a lovely Spring day. And the most pleasing benefit of all has been the surprising economy that Gas Heat unquestionably brings.

**YOU CAN AFFORD** this comfort—this easy chair living of Gas Heating. For Gas is the only fuel whose cost can be safely estimated in advance. Never has Gas Heating Equipment been more reasonable in price—more efficient or more economical in operation.

**A LIFE MEMBERSHIP** in happier living is yours when you join the Easy Chair League of Gas Heating. Gas Heating equipment has no moving parts to wear out. At no time are there any extra costs or varying expenses that might cost you money. Join up now for a happier winter. Install Gas Heating and become a member of the Easy Chair League for Life!

**READY FOR WINTER?** You will be surprised, as many home owners have been, to find out how economical Gas Heating really is. You can buy and install any of these modern Gas Heating devices on extremely easy payment terms. In fact, on permanently installed equipment that becomes part of the house you live in, F. H. A. TERMS OF NOTHING DOWN with Three Years to Pay are available. Telephone, write or come in today.

### LEGAL NOTICE

**NOTICE TO BIDDERS**  
NOTICE IS HEREBY GIVEN that the Board of Trustees of the Washington Union High School District of Alameda County, California hereby calls for sealed proposals to be delivered to the Clerk of said Board at the office of said Board in the Washington Union High School Building, Centerville, California until Tuesday, the 29th day of November, 1938, at 8:00 o'clock P. M., at which time and place said bids will be opened for the furnishing of construction materials of the following types:

Lumber  
Mill work  
Plumbing  
Hardware—finished  
Hardware—rough  
Electric  
Sand, plaster, gravel, cement  
Roofing materials  
Paint  
Sheet metal  
Reinforcing steel  
Glass and glazing  
Steel sash  
Miscellaneous items

To be used in the reconstruction, construction and repair of the school grounds and building of the Washington Union High School District, located at Centerville, California.

These bids shall be presented in accordance with the specifications for said construction materials on file at the office of the Board of Trustees of the Washington Union High School District of Alameda County, Centerville, California.

Bidders may submit bids for furnishing any or all of the above types of construction materials, but must bid on all items included under each type bid upon as provided in the form of proposal hereinafter referred to, unless otherwise specifically provided therein.

These bids must be made on proposals obtained at the office of the Board of Trustees of the Washington Union High School District in the Washington Union High School Building, Centerville, California and must be signed by the bidder, and accompanied by a certified check, certified to by some responsible bank or banker and made payable to the Washington Union High School District of Alameda County, to be retained by said Washington Union High School District of Alameda County as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract or any bond required by law. The amount of said check shall be for at least ten per cent (10%) of the total amount of the tendered bid.

The Board of Trustees reserves the right to reject any and all bids on any and all items of such bids.

By order of the Board of Trustees, Nov. 9th, 1938, Centerville California.

H. F. HARROLD,  
Clerk of the Board of Trustees of the Washington Union High School District of Alameda County, California.

### SERVICES HELD

#### FOR MANUEL PERRY

IRVINGTON—Final rites were said yesterday for Manuel Vargas Perry of Irvington at the Berge Mortuary Company parlors at Niles. Mass was said at St. Joseph's church and interment was at the Holy Sepulchre Cemetery at Hayward.

The deceased was the husband of Mary C. Perry, the father of Mrs. Thomas J. Berge, Manuel V., Jr., and the late Thomas V. Perry, the brother of Brother Joseph Pereira, S. J., of Los Altos, John V. of Centerville, Joaquin V. of Irvington and the late Brother Anthony Pereira, S. J. of Santa Clara.

He was a member of the I. D. E. S. No. 136 and U. P. E. C. No. 7, both of Irvington.

### DEATH REMOVES

#### ALVARADO MATRON

ALVARADO—Funeral services for Mary Foster, aged 33 years, were held Tuesday from the Chapel of the Palms, with mass at St. Anne's church at Alvarado and interment at the Holy Ghost cemetery at Centerville.

The deceased passed away at her home in Alvarado last Saturday. She was the wife of the late Joseph Foster and the mother of John Foster of Oakland, Ernest Foster of Newark, Thomas Foster of San Francisco and the late Mary Chrysostomo. She was a member of the S. P. R. S. I. of Alvarado.

### LEGAL NOTICE

#### NOTICE OF HEARING OF PETITION TO LEASE REAL ESTATE

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF ALAMEDA

No. 69605 Dept. 4  
In the Matter of the Estate of  
GEORGE P. LOWRIE,  
Deceased.

GEORGIE LOWRIE, administratrix of the estate of George P. Lowrie, deceased, having filed herein her verified petition praying for an order of the above entitled Court authorizing her, as such administratrix, to lease certain real property of the estate, as hereinafter specifically described, to George Lowrie, Jr., for a term of three years (3) years, with rent payable on a share basis, as more specifically set forth in said petition, which said petition is hereby referred to for further particulars.

NOTICE IS HEREBY GIVEN, to all persons interested to appear before said above entitled Court on Tuesday, the 22d day of November, at ten o'clock A. M., Department Number 4 thereof, at the Court House in the City of Oakland, County of Alameda, State of California, on 12th and Fallon Streets, then and there to show cause, if any they have, why said petition should not be granted and an order made authorizing said administratrix to execute a lease, as in said petition and hereinabove referred to, and describing the following described real property, to-wit:

ALL that certain real property situate, lying and being in the Township of Washington, County of Alameda, State of California, particularly described as follows, to-wit:

BEGINNING at a point on the Northeastern line of the County Road leading from Alvarado to Irvington, also known as County Road No. 397, where the same is intersected by the line dividing the lands now or formerly of John T. Stevenson, from lands formerly of the Estate of John Lowrie, deceased, said point being distant North 58 degrees 15 minutes West 15.82 chains from the most Western corner of land formerly owned by Mrs. E. T. Randall and previously by one Lloyd and marked on Allardts official map of Alameda County, made in 1874 as "Mrs. Randall et al" running thence from said point of beginning along said dividing line, North 42 degrees East 3441.50 feet to the Southwestern boundary line of that certain piece or parcel of land conveyed by George P. Lowrie and Georgie Lowrie, his wife, to Pacific Rock Co., a corporation, by deed dated December 29, 1927 and recorded March 17, 1928 in Liber 1824 of Official Records of Alameda County at page 238; thence South 45 degrees 41 minutes 55 seconds East along said Southwestern line of said tract so conveyed 554.34 feet to the Southeastern boundary line of that certain piece or parcel of land conveyed by Mary Ella Mickle et al to George Patterson Lowrie, by deed dated April 24, 1894, and recorded in Liber 536 of Deeds, at page 399, Alameda County Records, thence South 42 degrees West along said Southeastern line so conveyed Thirty four Hundred Eighteen and 49/100 feet to the said Northeastern line of said County Road leading from Alvarado to Irvington, thence North 58 degrees 15 minutes West along said line of said road 572.32 feet to the point of beginning.

CONTAINING 44.1945 acres, more or less, and

BEING a portion of said land conveyed to George Patterson Lowrie.

Dated: November 9th, 1938.

G. E. WADE, County Clerk,

By M. H. Weber Deputy.

(Nov. 11, 18)

### ILL STUDENT IS

#### GIVEN PARTY

ALVARADO—Stanley Lewis, Alvarado Grammar School student, who has been ill for several weeks was given a surprise party by about 20 of his schoolmates on Halloween night.

### ARRESTED FOR DRUNK DRIVING

NILES—Cruz Jacobo, 49, of Niles is spending 30 days in the county jail in lieu of a \$90 fine imposed by Judge J. A. Silva on a charge of drunk driving. His wife, Jovita Jacobo, 42, was arrested for violation of County Ordinance No. 300, but judgment was suspended.

## STATE SPEEDS '39 FARM EXHIBIT

Pictured above is the first view of a remarkable diorama now being constructed by the Exhibits Division of the California State Department of Agriculture in the Hall of Agriculture at the Golden Gate International Exposition on Treasure Island. Among the first of the major exhibits to be actually under way on the site, the remarkable display now being built is well on the way to completion. Exhibit technicians are shown putting finishing touches on a Mission detail. Two dioramas—each 100 feet in length—will graphically depict the entire cycle of agriculture from the days of the padres to present day California; also, interesting and instructive phases of the educational and inspection work of the Department. The California State Commission reports encouraging progress on this and other State and County group exhibits.

### BOORAS JOINS MARINE CORPS

NILES—Ted L. Booras, 20 cousin of William Booras, 610-2nd street, Niles, is now a member of the United States Marine Corps. He was enlisted at the recruiting station, San Francisco, and transferred to the Marine Corps Base, San Diego, for preliminary training.

Upon completion of preliminary

training, he will be eligible for transfer for duty aboard a vessel of the Pacific or Asiatic fleet.

### SERVICE WELCOMES PASTOR ASSISTANTS

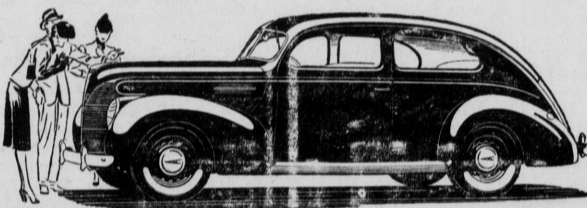

IRVINGTON—Mr. and Mrs. Carter McKemy, student assistants at the Irvington Community Church, were greeted at Sunday's services by 70 members of the congregation and the Sunday School.

They have been absent for several weeks due to the illness of Mr. McKemy.

Greetings and good wishes were extended to the church leaders and special music was furnished by Lyle Fisher and Thelma Van Ike accompanied by Mrs. McKemy.

The sermon was delivered by Mr. McKemy who hopes to be able to start the evening services and the forum soon.

## Newark Newsettes

### SUNDAY CEREMONY UNITES LOCAL COUPLE

Miss Lorraine Lyons, daughter of Mr. and Mrs. Al Lyons, and Manuel Montero, son of Mrs. Katherine Montero, were married at 2 o'clock Sunday at Saint Edward's Church.

Grace Lyons, maid of honor, wore a coral formal and carried a French bouquet. John Montero was best man.

The bride wore a white brocade moire formal with a long white train and carried a bouquet of gardenias. The groom wore a black suit with a gardenia as did all of the male attendants.

The bridesmaids were Jeanette Silva and Mary Faria, who wore pink formals and carried French bouquets. The ushers were James Nevis and Frank Pine. Little Beverly Jean Nevis, ringbearer, wore a blue and white formal.

After the ceremony, a dinner was served at the home of the bride's parents, attended by 52 guests. The couple left for a brief honeymoon trip north and will reside in Niles.

### VISITS IN HAYWARD

Mervin Nevis spent the week end at Hayward with Milton Nevis.

### KAREN TUTTLE AT SCHOOL NOV. 16

A violin concert by Karen Tuttle will be given at the Newark auditorium on November 16 at 1 p. m. She was selected out of a group of outstanding musicians of the western states and will give many concerts on the Pacific Coast.

The public is invited and Principal MacGregor would like to have the parents attend.

### NEWARK LOSES 12-0

The Centerville lightweight football team defeated the Newark team on Thursday by a score of 12 to 0 at Newark.

### SCHOOL PROGRESSING

The Newark school has started to practice soccer, and forming a basketball league in the township. The school has at the present time 207 enrolled.

### MILLERS VISIT IN OAKLAND

Mr. and Mrs. James Miller and children spent Sunday in Oakland at the home of Mr. and Mrs. A. E. Pederson.

### SIMAS SPENDS WEEK END HERE

Mrs. F. J. Simas of Oakland spent the week end with Miss Lida Francis.

### rites Held For FRANK RIVERS

Funeral rites were held for Frank Rivers of Newark last week, when he passed away suddenly at his home on Sunday morning. He is survived by two sons, one of San Francisco, and Elloyd of Newark; three daughters; two brothers, Tony and Frank and many other relatives. Many Newark people attended the funeral.

### MRS. MANLEY HOME FROM HOSPITAL

Mrs. Violet Manley is home again after undergoing an operation at the Merritt hospital in Oakland.

### DE VALLES ENTERTAIN

Mr. and Mrs. A. DeValle entertained as their guests Sunday Mr. and Mrs. J. Meyers of Oakland and Mr. and Mrs. Clarence Silva of Hayward.

### MRS. LANKFORD ROBBED

Mrs. Emma Lankford was robbed on Saturday evening while visiting her daughter, Ann Coffeen, at the Highland hospital. Clothing and various other articles were taken. Officers found no trace of the thief.

### GROUP ATTEND EVENT

A large group of people along with the orchestra and chorus of Newark spent Monday at Pleasanton High School attending the Southern Alameda County musical Association event.

### MEMBERS ATTEND DINNER

A large number of Newark Farm Home and Farm Bureau members attended a dinner held at Livermore on Saturday evening. About 400 were present.

### STOVE MOUNTERS OUTLINE AGREEMENT

Local 61 Stove Mounters International Union and all sub-board committees from various departments held a dinner at Bertol's in Oakland on Friday evening. Reason for the dinner was to outline the 1939 agreement.

### STOVE MOUNTERS FORMING COUNCIL

The Stove Mounters International Locals on the Pacific Coast sent delegates to Oakland last Tuesday evening for the purpose of forming a district council.

### LOS ANGELES VISITOR HERE

Mrs. Geneva Harvey of Los Angeles arrived Wednesday to visit her sister, Mrs. Vernon Brown. They visited together in the Sacramento Valley yesterday.

### IN HOSPITAL IN SAN JOSE

Mrs. Fred Phippen is convalescing at the San Jose Hospital after a recent operation.

### FIRE DEPARTMENT HOLD LADIES NIGHT

The Newark Fire Department held their annual ladies' night on Thursday evening at Butler's Hotel.

### POT LUCK SUPPER HELD

The Washington Township Parish held a "pot luck" supper on Thursday evening, Oct. 27 at the Newark Presbyterian Church. About 70 attended.

### WILLIAMS VISITS DAUGHTER

Mr. and Mrs. Henry Williams and son, Wilbur, spent Thursday at Turlock visiting her daughter, the occasion being her birthday.

### GOULDS AT CROCKETT SUNDAY

Mr. and Mrs. W. J. Gould and son spent Sunday visiting at Crockett at the home of Mr. and Mrs. Paul Binder. They visited the sugar refinery which is the largest in the world.

### IMP. CLUB POSTPONES MEETING

The Women's Improvement Club meeting has been postponed on account of election night on Tuesday evening.

## SCULPTURES PORTOLA EXPEDITION FOR EXPOSITION

Announced today by the California State Commission are details of the huge diorama of the Portola Expedition of 1769, to be placed in one of the auditoriums of the State Building on Treasure Island. Designed by Jo Mora, internationally famed artist-sculptor, shown above, the diorama—100 feet in length, probably the largest ever constructed—will depict the hazardous overland march, over an unexplored terrain, of Governor Portola, Friar Crespi and 62 other men, with their pack train of 204 animals. Suffering severe hardships, the expedition eventually reached Monterey Bay and San Francisco Bay, writing one of the first chapters of the inaugural era of the State. Constructed of 14 sections, the diorama will be easily demountable, available for educational purposes after the close of the Fair.

### VISITORS AT BERTILOTTI'S

Mr. and Mrs. Ernest Kezley of Pescadero and Mr. and Mrs. David Avery of San Jose spent Sunday at the home of Mr. and Mrs. Mrs. Bertilotti.

### GYGAX RAPIDLY IMPROVING

Paul Gygax, Newark merchant, who has been ill for quite some time, is improving rapidly and is at the store again.

### NEWARK PEOPLE ATTEND WEDDING

Many Newark people attended the wedding of Ruel Brown and Lucille Alves at Niles Corpus Christi Church on Sunday at 2:30 o'clock.

### NEWARK FIRE HOUSE PROGRESSING

The Newark Fire house is progressing rapidly. Stycco and inside work is expected to be completed this week.

## Irvington Items

### SPENDS WEEK END AT HOME

A. E. Garcia, Jr., who has been in Etna with his construction company, spent the week end at his home here.

### SURPRISE EVENT ON BIRTHDAY

A surprise birthday dinner party in honor of Joseph Perry was given at his home by his wife, Ann Perry, on Sunday night. The evening was carried out in Hal-loween style and after dinner games and cards were played. The guests were Mr. and Mrs. C. A. Danger and son, Dicke, and Anthony Perry of San Francisco, Miss Rose Amaral of San Jose, Mr. and Mrs. Harry Rose, Mr. and Mrs. L. R. Freitas and children and Mr. and Mrs. Leslie Hiller and daughter.

### VISIT IN OAKLAND ON SUNDAY

Mr. and Mrs. William Dargitz and daughter, Clytelle, Mrs. Edward Dargitz and Mrs. Mary Gillespie visited in Oakland with friends on Sunday.

### HOSTS AT HALLOWEEN PARTY

A Halloween party was given by Mr. and Mrs. Edward Goularte at their home. Those who attended were Mr. and Mrs. Alfred Botelho, Tony Silva of Irvington, Mr. and Mrs. Seraphine Calderia of Centerville.

Out of town guests were Mr. and Mrs. Frank Rodrigues, Mrs. Louise Baptista, Fred Freitas, Miss Pee Wee Rodrigues, Frank Matoza, Miss Marie Rodrigues, Chester Brooks from the Oakland airport, Miss Maggie Bull, Victor Lundstrom, Mr. and Mrs. Al Frussa, Banker Matoza and Mary Garcia.

Games were played and stories told. Refreshments were served at midnight.

### ENTERTAINS FOR SUNDAY GUESTS

Mr. and Mrs. J. P. Silva entertained Mr. and Mrs. Rebello and family from Niles, Sunday.

### GUEST OF FRIENDS IN OAKLAND

Mrs. Mamie De Flon spent the week end with friends in Oakland, Sunday.

### SUNDAY VISITORS FROM ALAMEDA

Mr. and Mrs. Howard Denton and children from Alameda were visitors at the Al Botelho home.

### GUESTS OF PARENTS FEW DAYS

Mrs. Florence De Campo of Hanford visited with her mother and father, Mr. and Mrs. Joe Medeiros, over the week end.

### ON EXTENDED VISIT WITH AUNT

Wanda Lee Shepherd is spending several weeks with her aunt, Mrs. A. B. Dyer, in Yuba City.

### DALY CITY VISITORS HERE

Mr. and Mrs. Walter Wilson and son from Daly City are visiting with Mrs. Belle Dutra and family.

### SPEND SUNDAY AT VAN ICKE HOME

Mr. and Mrs. Carter McKemy of San Anselmo spent Sunday with Mr. and Mrs. Malcome Van Icke and family.

### PARENTS SPEND SUNDAY HERE

Mr. and Mrs. Garcia from Turlock visited with their daughter, Mrs. Pete Medeiros, and family on Sunday.

### AWAY FOR SEVERAL WEEKS

Ray and Joe Gallegus are visiting in San Joaquin for several weeks.

### VISITORS AT DARGITZ HOME

Mr. and Mrs. John Jorge of Lodi, Clinton Jorge of Sacramento and Helen Jorge of Washington were visitors of Mr. and Mrs. William Dargitz.

### TRAFFIC PATROL ATTENDS GAME

The Irvington patrol attended the Stanford and Washington game Saturday. The members who attended were Thomas Nitta, Hugh Davis, Yoshi Ishida, George Masuda, Shigao Kita, Wesley Hammond, Jimmie Machida, Sunao Furusho, Frank Scammon, Eddie Medeiros, Harold Keesee, Clarence Harvey, Wallace Stanley, George Ramsell, Bob Courtney, Douglas Mayock, Harold Stearns, Donald Silveria, Charles Ramsell, Kenneth Perry, Raymond Allender.

### SPEND SUNDAY IN HAYWARD

Postmaster and Mrs. M. C. Joseph visited with Mr. and Mrs. A. C. Silva of Hayward, Sunday.

### NEW LIBRARY BOOKS AVAILABLE

Some of the new books that have just arrived at the Irvington library are "Compromise" by Ayres, "There was Another" by Ayres, "Queen of Farrandale" by Burham, "Knave of Diamonds" by Dell, "Gertrude Elliot's Crucible" by Downs, "Danger in the Dark" by Eberhart, "Officer" by Footner, "Victor Oline's Discipline" by Garland, "Successful letter writing" by Hower, "Science of Eating" by McCann.

Some of the juvenile books are "Sue Barton, Student Nurse" by Bolyston, "Sue Barton, Visiting Nurse" by Bolyston, "Fat of the Cat and other stories" by Keller, "Treasure Trails in Art" by Chandler.

Books for the P. T. A. shelf are available for parents and teachers. Some of these books are "The Child, His Nature and Needs", "Children's Foundations", "Psychology of Infancy and Early Childhood", and "A Guide to Literature for Character Training" and many other good books.

## Centerville Jots

### SUNDAY SCHOOL PARTY SLATED

Young people of the Centerville Presbyterian Church will meet at the church next Tuesday afternoon at 4 o'clock for games and a potluck supper. Mrs. Vernon Brown and Mrs. C. E. Anderson will have charge.

### K. P. HAS MEETING

The Centerville Lodge of the Knights of Pythias planned an evening affair to be held later this month at last night's meeting with Leonard Whitbeck, chancellor commander, in charge.

### WELFARE CLUB WILL MEET

The Welfare Club will meet next Monday at the home of Mrs. Allen G. Norris with Mrs. Etta Alexander as joint hostess. Mrs. W. L. McWhirter asks a full attendance as plans are to be made for the distribution of holiday gifts.

### LADIES' AID HAS MEETING

The Ladies' Aid of the Centerville Presbyterian Church met Wednesday afternoon with Mrs. Fawcett.

### ENTERTAINS AT DINNER PARTY

Mr. and Mrs. F. A. Bishop entertained at a dinner party at her home this past week.

### GUILD TO BE ENTERTAINED

Mrs. Fleda O. Bunting and Mrs. William Cull will be hostesses to members of St. James Guild next Wednesday afternoon. The affair will be a dessert bridge at Memorial Hall at 1 o'clock.

### SAN FRANCISCO GUEST HERE

Miss Arvis Wright of San Francisco spent the week end with Mr. and Mrs. Dallas Paul.

### LIONS CLUB HAS EXPORT TALK

G. R. Scott, export manager of the California Nursery Co., addressed the Centerville Lions Club at Tuesday night's meeting regarding economic conditions throughout the world as reflected in export business. Plans were discussed for a benefit theatre party in Niles during December.

### CHINESE DINNER PARTY HELD

Dr. and Mrs. George Holeman and Mr. and Mrs. Julius Dohrmann of Oakland entertained 24 friends at a Chinese dinner in the Holeman rumpus room Saturday night. Real Chinese food was served from a table beautifully decorated with Oriental favors and set with Chinese dishes. Dancing followed the dinner.

### ELECTION SUPPER IS GIVEN

Dr. and Mrs. W. L. McWhirter entertained a score of friends at supper Tuesday night to listen to the election returns.

### VISITORS AT COIT HOME

Mrs. Nuttal of Berkeley and Bob Coit were at the home of Mr. and Mrs. George Coit Sunday.

## SYNOPSIS

Richard Exon, a poor young Englishman, befriends elderly Matthew Gering, who at his death gives him a statement claiming he, Gering, is Rudolph Elbert Virgil, Count of Brief, of ancient Austrian nobility who was betrayed 20 years before by his twin brother, Ferdinand, whose sentence for forgery he himself served. Ferdinand appropriated his title, property and daughter. Before he dies, Gering tells Exon there is a family secret, known only to the head of the house, to be found in the great tower at Brief, by a doorway none can ever find. Exon inherits his uncle's fortune and sets out to right Gering's wrongs. En route he encounters Percy Elbert Virgil, son of the villainous Ferdinand and sees him in conference with Inskip, a diamond merchant. He engages a valet, Winter, who hates Percy and meets by chance at a garage, John Herrick, who is a linguist and who as a youth served as a page at Gering's wedding, and had visited Brief. Herrick agrees to aid Exon. They establish headquarters at Brenda Revoke's farm at Raven, a few miles from Brief and make their plans. They find the castle almost inaccessible. They see a closed car occupied by Percy Virgil, a chauffeur and a woman. Hearing a dog scream, they see the chauffeur flogging it, just as a horse with a girl astride bounds along the path and is felled by a strong wire. The girl, unconscious, is picked up carefully by the chauffeur and woman, who then run away, after dropping her. Exon rescues the girl and carries her to his waiting car. He identifies the girl as Elizabeth, daughter of the disowned Gering, tells her of her cousin's plot to abduct her and takes her to Raven, where he tells her the story of her father and promises to go the limit to help her right her father's wrongs. Elizabeth wins faith in her benefactor. Percy Virgil brings the police to Raven, announcing that two strangers are being sought for the kidnapping of Elizabeth. Herrick discomfits Virgil, tells of the morning's adventure, names a man called Max and hands the police a sealed envelope with the name of the leader in the abduction—Percy Virgil. Exon and Herrick suspect Percy of having sold the family jewels through Inskip. All realize the only solution is to find the Secret of Brief, which the impostor Ferdinand does not know. They decide to take possession of the Tower.

## CHAPTER IV—Continued

Holding my torch in my teeth, I inspected the four beddings carefully, one by one. There was nothing to choose between them: all were apparently sound. I put my torch away, and tested the bars themselves. The first was not rock-steady; the second, however, might have been a part of the tower.

Clinging to the cage like some ape, I fought to loosen the first, and when I stopped to take breath, I could move it an eighth of an inch.

But for the cage, I could never have done what I did. As it was, I could work with freedom, and, when I was tired, I could rest; and this without the dragging, deadly oppression of what I will call self-support. Never at any time was I holding my own weight up.

Without the mallet, the chisel was of no use, and I could not have used them together, because I had to hold on: but by working the bar to and fro, I gradually crushed the cement which was lying within the sockets between the bar and the stone.

After nearly half an hour this bedding was gone, and I could move the bar sideways a full two inches each way; but wrench it out, I could not, and after a little I knew that its ends had been purposely bent—to defeat the very object I had in view. I could loosen, but I could not displace it, unless I had the strength to pull a stone from the tower.

Now the bars had been set in the wall four inches apart. By holding my bar to one side, I now had a space of six inches between that bar and the next. But that was not wide enough. . . . After a moment or two, I began to try to loosen the second bar.

As well try to shake a statue—or so it seemed. As I have said, the thing was a part of the tower. But after ten frantic minutes I felt it stir.

I stopped for a moment to rip off my tie and collar and let them drop. Then I fell upon that bar, like a man possessed.

Twenty-five minutes went by before I had the sockets clear of cement.

If I moved the two bars I had loosened as far apart as I could, I now had a space of eight inches through which to pass; but, short of displacing a bar, I could have no more, for the iron of which they were wrought was not to be bent.

I have sometimes heard said that where a man's head will enter, there his body can pass. On that exacting night I proved that saying untrue. I could put my head into the cage, but, do what I would, I could not pass my body between the bars.

Three feet below me, I saw Elizabeth's upturned face. She was standing on Herrick's shoulders, leaning against the wall.

"What is it?" I whispered. "What is it?"

"Leave it, Richard. You must. No man could do any more, but it can't be done."

It was the phrase she used that opened my eyes.

"No man could do any more." Perhaps. But a woman could.

"Listen," I said, "you've come in the nick of time. Can you see these bars? The two middle ones are played; but I can't move them far

ther apart, and I'm too big to get through. But you can pass easily—and the window is open beyond . . . Very well. In a minute I'm going to lean down and pick you up, but not by your hands—by your belt. Put your hands above your head, as though you were going to dive; and when you come up to the bars, just wriggle your way between them and get a knee on the sill."

Without a word, she put up her hands as I said, and I disposed myself as well as I could.

Holding fast with my left to a cross-bar, I reached my right hand down till I touched the small of her back. Then I took her by the belt of her breeches and lifted her up.

She could not have played her part better, if we had rehearsed the maneuver a score of times. As she came to the bars, she turned sideways, her back to me; and before I knew where I was, she had taken her weight.

And then it was all over, and she was within the tower—standing,

We Had Been Within the Tower for Thirty-Nine Hours.

looking out of the window, with her delicate hands on the sill.

For a moment we regarded one another, she as unearthly fair as I was foul.

Then—

"What can't you do?" she said quietly.

I shall never forget that moment. The iron bars were between us, the bars which I could not pass. Like some beast, I was peering between them at a beauty which was not of my world. Corruption surveyed in corruption—and found it his heart's desire.

"When you talk like that," I said hoarsely, "you make me feel rich."

Elizabeth smiled.

"That was the idea," she said gently. "Be careful how you get down."

## CHAPTER V

I shall not set down in detail the search we made for the "doorway" which no one would ever find, for, for one thing, we went about it as anyone else would have done, and, for another, almost the whole of our labor was thrown away. But that, I suppose, was inevitable.

There was the winding stairway, sealing the wall of the tower, and within its coils were the chambers which made the suite. From top to bottom its walls and its steps were of stone, and the flight rose without interruption, except for four landings so slight as scarce to deserve that name. It was very simply built and served or was served by five doorways, not one of which was hidden in any way; and since its form was that of the ordinary winding stair, it was hard to see how any other doorway could really be there, and harder still to divine where such another doorway could possibly lead—for on one hand you had the chambers and, on the other, the wall of the tower itself.

The door from the courtyard gave to a miniature hall which just accepted the oak when Elizabeth swung it back. This hall was but four feet square and might, in days gone by, have been held by one man against fifty who strove to pass.

As you entered the hall, the stairway rose on your right, and, before you, another doorway led to the first of the chambers within the tower. These were three in number, and all would have had the same shape, but for the demands which lavatories and a bathroom had made.

Before we did anything else, we bolted the door between the tower and the castle, as well, of course, as the door by which we came in.

After that, I made for the window whose bars I had forced aside, and roughly repacked the sockets from which the cement was gone; and

since, before we came in, we had gathered the scraps which had fallen whilst I was at work, there now was nothing to show that the cage had been tampered with.

Then I joined my lady and Herrick, who were surveying the stair.

If this was dark by night, it was dim by day, and we could do nothing useful without the help of a torch: so, though we had not brought Brenda with that idea, she had very soon to come to Elizabeth's aid: together they shed the light, whilst Herrick and I conducted the actual search.

That the work would require great patience was presently clear, for the walls seemed to be as blank as an untouched page, yet we could not believe that a doorway could be concealed in the steps.

"You must go up, counting your steps . . ."

Not until that time did I at all understand the portion confronting the prisoner of ancient days, who set himself to discover a way to break

brains . . . Well, I'm going to give mine a show now—before it's too late."

With that, he walked into the bathroom, to lave his head and his hands, and I sank down on the bed and did my best to marshal my weary wits.

"He's right," said Elizabeth, slowly. "One always begins the wrong way. Once we'd been over the ground, we ought to have sat down quietly and let our minds play upon the puzzle. You know. Like doing a crossword."

"That's all very well," said I, accepting some tea from Brenda, who showed no sign of fatigue. "But who could do a crossword without any clues?"

"We've got two clues. We know that a doorway exists; and we know that, to reach that doorway, we've got to go up the stairs. If—"

"My God," said I, starting up. There was a moment's silence.

"Go on," said Elizabeth, quietly. "What do you know?"

"Your father said that there was in the tower a doorway which no one would ever find. And then he used the words 'you must go up, counting your steps.' But he never said that the doorway was on the staircase. He said it was in the tower."

"You mean—"

"I mean that we have been looking for a doorway which we can reach from the stair: but we ought to have been looking for something upon the stair which, when we have found it, will disclose where the doorway is."

"That's right," said Herrick's voice. "And the stairway bears him out. There is no doorway there—I think we can swear to that. But there is a spring or something which, when we can touch it off, will open some hidden door in another part of the tower."

The case was now greatly altered. We knew that the path we were on was the right one and very soon would bring us up to our goal.

And so it did.

Not more than an hour had gone by when I found on the thirty-sixth step a nick which might have belonged to the lid of a pencil box. It was cut in the tread of the step, close to the edge and close to the outer wall. It was choked with a cake of dirt which I had to cut out with my knife, and an obstinate film of dirt was encrusting that side of the tread; but when I had used a wet cloth to rub the stone clean, there were the parallel cracks which I had expected to see. In a word, I had found a panel—a tiny, sliding panel which, if I could draw it towards me, would discover a slot in the tread, three inches by two.

(Here, perhaps, I should say that I have now no doubt that the film of dirt on the tread was more than the natural deposit which Time will lay, and that, after replacing the panel, the late Count of Brief had washed the stone with some liquid which, when it was dry, would form an invisible skin.)

Half an hour went by before the little panel allowed me to have my way. Then at last, with a crack, it yielded, and two minutes later I drew it out of the tread.

Its withdrawal disclosed no slot, but a miniature well, rather more than an inch across; and sunk in this well was a bolt of very old iron.

At once we saw that the bolt was thus holding in place the rise of the step upon which we were now at work, and that if we could pull the bolt up, the rise would be free to be moved.

(TO BE CONTINUED)

## Science Has Ousted Old-Time Sourdough; College Men Now Hit Canada's Gold Trail

The grizzled old prospector, the sourdough trail blazer through the northern wilderness, has not disappeared from the scene but is gradually vanishing from Canada's gold trails, writes a Vancouver (B. C.) United Press correspondent in the Detroit Free Press.

Some have followed the modern trend to the airlines, while new-fangled gadgets explore the secrets of the earth and modern aerial photography eliminates the guesswork in the present day quest for gold.

Still the veterans and the younger men swarm over Canada's hinterland in search of the "gold in them thar hills," but modern miners agree that they belong to the lost legion.

The "yellow metal is still 'where you find it' but modern science is finding it first. It is the era of the geologist, the college-trained miner.

Geophysical prospectors reveal what lies under the glacial layer which covers the dominion. This year the Canadian government will send 40 such expeditions into the northern mining areas.

In the Cariboo district of British Columbia placer mining is still in evidence and hundreds of men have

gleaned a living by panning the creeks, encouraged by high gold prices in world markets.

But primitive panning methods have given way to scientific geophysical panning, and large companies explore the earth, 600 or more feet deep, for old pre-glacial creek beds.

The drill of the hard-rock miner has displaced the pick and shovel of the surface miner, and in the Yukon old style placer mining has been discarded for huge dredges.

"The Blood Stone"

A small, silver-mounted crystal ball is known as "The Blood Stone," and is believed to have been used by the ancient Druids for calling down spiritual fire and summoning the gods. It was buried near what is now Chatham, says London Tit-Bits Magazine, with a woman presumed to be a high priestess in a religion that practiced strange and horrible rites; this type of stone was popular with witches. According to legend it has had an evil effect on mankind since the dim ages before Christ was born, and people are chary about possessing it.

## Modern Debs Celebrate by Drinking Milk

By PATRICIA LINDSAY

© Bell Syndicate.—WNU Service. A FEW days ago in a popular social column of a leading New York paper this item appeared:

The pretty, blond debutante, Lesley Bogert of Newport, arrived at a popular night club after midnight last night with a party of friends. The party all drank champagne with the exception of Miss Bogert, who followed the current debutante milk fad!

And there you have it. Society's younger, pampered darlings have more sense than you would believe! The majority of debutantes, past and present, are in their 'teens and they go to more parties in a week than you and I are likely to attend in a month or two months!

What would happen to the health and beauty of these young girls if they sipped cocktails and highballs at every party?

A large percentage of New York's debutantes have hopes of careers even as you and I. They are not going to jeopardize their chances of

Rochelle Hudson is just one of Hollywood's younger set who believes in passing up cocktails for more health-giving drinks. On the way to stardom she knows what's best!

A successful career or a good marriage. They protect their beauty by getting plenty of rest—even if they have to sleep in daytime hours—and by carefully watching what they eat and drink.

## Beauty Requires Proper Diet

Young beauty, it is true, can stand a lot more wear and tear than older beauty. Nature does allow a quick rejuvenation of tired tissue, and muscles of the youthful body naturally have greater duration of strength. That is why many younger girls feel that they can eat and drink what they desire, and sleep when they want to, without losing any of their fresh beauty.

They rely on strong facial muscles, unstrained tissue, and other youthful assets, to see them through. But woe to those who do not realize that nature demands consideration or she just falls down on her job! Those girls find themselves tired looking at 20, and completely faded by thirty when any American girl should be her most beautiful!

What you feed your body with is of primary importance. From milk—which is almost the perfect food—your body can draw nourishment and provide strength. It is one of the most important items of any girl's diet unless she is allergic to it. It keeps the bloom in her cheeks, wards off tooth decay and other diseases, keeps her bones strong and her eyes clear.

How much wiser for young girls to sip milk at parties than to dull their senses, and poison their blood with strong drinks. I'm no grundy, girls, but my hat goes off to Miss Bogert and girls like her who plan for the future!

What is your daily grooming? Check up on it by sending a self-addressed, stamped (3-cent) envelope care of this newspaper for my leaflet—Don'ts of Good Grooming.

HINT-OF-THE-DAY

If you have been down in the dumps and life has grown humdrum it is time you changed your outlook!

As outstanding New York physician urges women to occasionally change their hair dress. He claims it boosts their dejected spirits and gives them a new outlook on life. "It is almost miraculous," he says, "how a new and becoming hair style can give a woman fresh beauty and thus change the current course of her life. Her interest in things somehow becomes stimulated anew and in a short time the period of dejection passes."

Books as Prisoners

The destruction of the Bastille in Paris, shortly after its seizure and the release of its prisoners on July 14, 1789, revealed hundreds of books that were also serving sentences. All had been duly arrested, says Collier's Weekly, tried and convicted of containing criticism of the past four kings.

## PLAYING THE GAME

"Don't you enjoy having summer boarders?"

"Not much; most of them read the comic papers. Mary insists on my eating with my knife and saying, 'b'gosh' so as to keep 'em convinced I'm a regular farmer."

## ACCOMPLISHED

"You say she's a veritable watter nymph?"

"Yes; even her eyes swim in tears."

## TELLING HER

Wife (listlessly)—Time mends everything.

Hubby—I wish you'd hunt him up and get him to go to work 'on my socks.

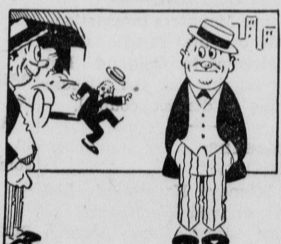

## THAT'S SOMETHING

"She threw me over and married the other man."

"Well, your chances of recovery are much better than his."

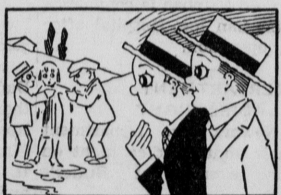

## TAKE YOUR CHOICE

"If you would live long, just walk."

"And jay-walk if you wouldn't."

## OLD-TIME STUNT

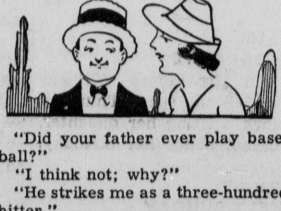

Tom—That pretty girl fell off the pier.

Dick—Accidentally?

Tom—Opinion is divided on that point.

A SEASONABLE THOUGHT

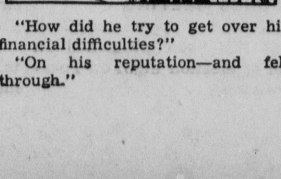

"Did your father ever play baseball?"

"I think not; why?"

"He strikes me as a three-hundred hitter."

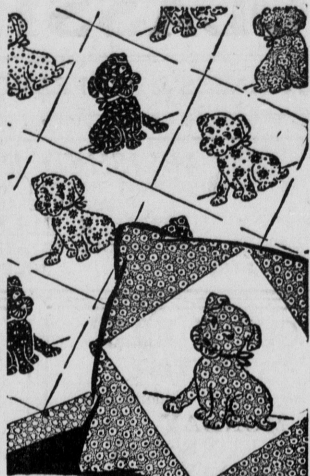

## HIGH DIVE

"How did he try to get over his financial difficulties?"

"On his reputation—and fell through."

## You'll Enjoy Making This Appliqued Quilt

Pattern 1846

Here's a chance for variety! Get out your scrap bag and just have fun applying this cute pup in the material as it comes to hand. He's just one big simple applique patch on a 9 1/2-inch block; the ribbon is put on in contrasting binding or embroidered on. He makes a fine pillow, too, with matching triangles added at the corners to form the pillow. Isn't that a thought for gift or fair? Pattern 1846 contains accurate pattern pieces; diagram of block; instructions for cutting, sewing and finishing; yardage chart; diagram of quilt.

Send 15 cents in stamps or coins (coins preferred) for this pattern to The Sewing Circle, Needlecraft Dept., 82 Eighth Ave., New York.

## Rheumatism

Just Do What You See In These Pictures To Relieve Pain Quickly

1. Take 2 Bayer Aspirin Tablets with a full glass of water the moment you feel either a rheumatic or neuritic pain coming on.

2. You should feel relief very quickly. If pain is unusually severe, repeat according to directions.

Just Be Sure To Use Genuine Bayer Aspirin

To relieve pain of rheumatism or neuritis quickly, try the Bayer Aspirin way—shown above.

People everywhere say results are remarkable. Yet Bayer Aspirin costs only about one cent a tablet, which makes the use of expensive "pain remedies" unnecessary.

If this way fails, see your doctor. He will find the cause and correct it. While there, ask him about taking Bayer Aspirin to relieve these pains. We believe he will tell you there is no more effective, more dependable way normal persons may use.

When you buy, make sure you get genuine BAYER Aspirin.

## HOW TO SEW

by Ruth Wyeth Spears

ed here for a bed jacket. You will have no difficulty in finding a pattern for a jacket as they are quite the thing to wear over sleeveless nighties. Your free-hand border will dress it up for a Christmas gift.

If the jacket is pale pink, the rows of running stitches might be in several tones of rose. The cross stitches could be in deep rose and turquoise blue to simulate flowers. The long and short stitches, shown at A and B, should then be done in apple green. Lines may be drawn with a ruler as a guide to keep the rows straight, and evenly spaced dots may be made to indicate the cross stitches beginning the spacing at the corners of the design.

IT is not often that a mere matter of stitchery strikes a national note with Americans, but here is something from a school teacher that may touch your pride a bit. She says, "Your Book 2 on Gifts and Embroidery interests me because it is the only thing I have seen on this subject that shows simply and clearly how to use a little originality in hand work. The women of all nations but ours find pleasure in expressing their own ideas in embroidery and needle crafts."

Here is another free-hand embroidery design that should be as much fun as those in the book. This attractive border is suggest-

Are you ready for Christmas; birthdays; and the next church bazaar? Do you turn time into money with things to sell? Mrs. Spears' Sewing Book 2 has helped thousands of women. If your home is your hobby you will also want Book 1—SEWING for the Home Decorator. Order by number, enclosing 25 cents for each book. If you order both books, a leaflet on quilts with 36 authentic stitches will be included free. Address Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

## Milestones in Development Of the Automobile Industry

November is the big month in the automobile industry, with the displays of new models all over the country. Each November is another milestone in the development of this great but infant business, which typifies American industrial genius.

In a period of only 30 years, from 1900, the auto came from nothing to top the list in total value of manufactured products. The millions of streamlined cars speeding along our great highways today are the direct descendants of the primitive motor-driven buggies of the first of the century.

The first experimental automobile was built in Germany in 1885 by Carl Benz, and consisted of a gasoline motor installed in a sort of tricycle. In this country, some 10 years later, Charles E. Duryea and Elwood Haynes built creditable gasoline-driven vehicles. Electric and steam cars began to appear at this time too.

The first automobile contest on record took place in 1895 under the auspices of the Chicago Times-Herald. Thirty-one cars raced over the 54-mile course and Duryea won in 8 hours and 23 minutes, an average of almost 7 miles an hour. Five years later, in a 50-mile road race on Long Island, A. L. Riker averaged nearly 25 miles an hour. That was considered tremendous speed. Most of the early cars were built on the lines of the horse-drawn buggy. Even the first standard designs retained the curved dash-board and the whip-socket, and many drivers wished they could use their whips on the engines. That was the age when bystanders urged motorists to "get a horse."

In 1900 organized production got under way. In 1910 front doors, windshields and folding tops were introduced. World war inflation of purchasing power gave the industry a tremendous boost in 1914, and another boost came in 1922.

### Coast-to-Coast Hike

Men have walked from New York to California. The fastest time that we find was made by an amateur walker, Abraham L. Monteverde of Mays Landing, N. J. He left New York on May 6, 1929, and walked, via Philadelphia, to San Francisco, arriving there on July 24. He covered the 3,415 miles in 79 days, 10 hours and 10 minutes. The former record of 80 days, 5 hours was held by John Ennis. The famous walker, Edward P. Weston, made the distance from New York to San Francisco in a little over 104 days in 1909.—Detroit News.

## NEVER SLEEP ON AN "UPSET" STOMACH

Neutralize excess stomach acids to wake up feeling like a million

To relieve the effects of over-indulgence—escape "acid indigestion" next day—do this: Take 2 tablespoonfuls of Phillips' Milk of Magnesia in a glass of water—AT BEDTIME.

While you sleep, this wonderful alkalizer will be sweetening your stomach... easing the upset-feeling and nausea... helping to bring back a "normal" feeling. By morning you feel great.

Then—when you wake—take 2 more tablespoonfuls of Phillips' Milk of Magnesia with orange juice. That is one of the quickest, simplest, easiest ways to overcome the bad effects of too much eating, smoking or drinking. Thousands use it.

But—never ask for "milk of magnesia" alone—always ask for "Phillips' Milk of Magnesia."

**PHILLIPS' MILK OF MAGNESIA**  
IN LIQUID OR TABLET FORM

**NO JOKE**

A cough due to a cold is no joke. Get Smith Brothers Cough Drops. (Black or Menthol.) Cost only 5¢—yet they're a real cough medicine. Smith Bros. Cough Drops are the only drops containing VITAMIN A. This is the vitamin that raises the resistance of the mucous membranes of the nose and throat to cold infections.

Rotary Vocational  
Service Improves  
Employee Relations

NILES — Application of the fundamental principles of vocational service of Rotary in employer-employee relations was discussed by Charles L. Wheeler, executive vice president of the McCormick Steamship Company and past president of the San Francisco Rotary Club at the Niles Rotary luncheon October 27.

Experiments conducted by him to bring about a better understanding between employees, their work and their employers proved successful in all instances except where subversive elements existed, Wheeler said.

He said that the amount of export shipping was a thermometer of prosperity of the country and that good times would return when this reached the 30 billion mark. At present it is only about \$13,000,000 and a great part of exports are being used for war indirectly instead of for raising the standard of living.

Visitors were Harry Fickert, Harry Lee, Frank Kruse of Hayward and J. R. Blacow of Irvington.

CEREMONY FRIDAY  
UNITES COUPLE

IRVINGTON — Miss Sally Wilson on last Friday became the bride of Joe Battig of Milpitas in a ceremony performed at noon at San Jose.

A bridal dinner and reception was held following the wedding at Sophie's Tavern, attended by a large gathering of friends. The couple left immediately on a honeymoon trip to Monterey and after their return on Tuesday are making their home in Irvington.

The bride is the daughter of Mr. and Mrs. Irwin Wilson of Ogden, Utah, where Mr. Wilson is an executive of the Southern Pacific Railroad. Mrs. Wilson arrived by plane in time to attend the wedding.

MAX BAER COMING  
TO NILES THEATRE  
SUNDAY AND MONDAY

NILES — As a special added attraction at the Niles Theatre next Sunday and Monday, there will be shown Max Baer in "Fisticuffs", which will give fight fans a good line on whether he might come back as a heavyweight title contender.

On the same program will be "Boy Meets Girl", with "Speed to Burn" as the other feature.

Tonight's show will have "I Am the Law" and "Billy, the Kid Returns." The bill for Wednesday and Thursday is "Spawn of the North."

O. OF C. PLANS  
SPECIAL LUNCHEON  
FOR THANKSGIVING

NILES — Plans for a special Thanksgiving luncheon of the Niles Chamber of Commerce were discussed at Monday's meeting. The meeting will be held at the Florence Restaurant on Nov. 21.

F. V. Jones was appointed to secure a speaker and A. J. Petsche to make arrangements for the luncheon.

A report on the membership committee activities was made by C. W. Kraft who said 13 new members had been received this year with a total of 56. The new membership drive will start in January.

George C. Roeding, Jr., said that plans were still under way for the improvement of Niles Canyon and for beautification of entrances to Niles.

## Decoto Doings

WEDS SANTA  
CLARA MISS

Miss Antoinette Medel of Santa Clara and Manuel Seoane of Decoto were united in marriage at a ceremony performed in the St. Claire Church at Santa Clara on Sunday afternoon at 3 o'clock.

The bride was given in marriage by her father. She was attired in a white satin gown made in the princess style with a long train trimmed in lace. She had a finger tip veil and carried a bouquet of white carnations.

The matron of honor, Rose Azevedo, wore a peach colored gown of taffeta. The bridesmaids, the Misses Josephine Seoane and Jessie Leiva, wore blue taffeta gowns and carried bouquets of pink sweet peas.

Joe Seoane, brother of the groom was best man. Following the ceremony a reception was held at the home of the bride's parents. Upon the return of a week's honeymoon the newlyweds will make their home in Decoto.

The groom is the son of Mr. and Mrs. Joe Seoane and is a graduate of the Decoto Grammar School. He has been employed in the California Nursery at Niles for the last few years.

BACK HOME  
FROM OAKLEY

Roy Soares has returned home from Oakley where he has been employed for the past several months.

ATTENDS  
ALVARADO LUNCHEON

Mrs. Harry C. Searles attended a luncheon at the home of Mrs. Logan in Alvarado on Thursday.

## SCHOOL CAST

Miss Mary Harold took part in the play entitled "Three Days of Grace" presented at the Washington Union High School on Friday evening.

LOCAL GIRL TO  
MARRY SOON

Florence Paniagus of Decoto and Manuel Hidalgo of Cupertino have filed their intentions to wed.

PAIR ENJOY  
FISHING TRIP

Claeence F. Salz and Harry C. Searles enjoyed a fishing trip on Thursday.

PRESENT AT SANTA  
CLARA NUPTIALS

Misses Lena and Marie Dutra attended the wedding of Antoinette Medel and Manuel Seoane in Santa Clara Sunday afternoon.

HAS GUESTS FOR  
TURKEY DINNER

Mrs. Louise Secada entertained friends at a turkey dinner at her home here on Sunday.

RECOVERING FROM  
OPERATION

Mrs. Tony Costa is confined to a hospital following an operation.

WILL MARRY  
SUNNYVALE YOUTH

Miss Dale Carey, former Decoto girl has announced her engagement to a Sunnyvale youth.

ANNOUNCE BETHROTHAL  
OF MISS MUNGER TO  
ROBERT H. WHIPPLE

DECOTO — Announcement of the engagement of Miss Margaret Lucile Munger, daughter of Mr. and Mrs. M. P. Munger of Alvarado, to Mr. Robert Harmon Whipple, son of Mrs. John Whipple of Whipple Road was made at a harvest party at the Whipple home Saturday night. No date has been set for the wedding.

The groom elect is a senior at Davis Agricultural College and the bride to be is a student at San Jose State College. Both families are well known in the township and have a wide circle of friends who are congratulating them upon the engagement.

Forty-four guests were present at the harvest party. Games and dancing and a hayride preceded the midnight supper. Announcement of the engagement was made in a novel game, the news being concealed in corn-husks. The house was elaborately decorated in harvest fruits and foliage.

RITES HELD FOR  
AGED RESIDENT

NILES — Maciel Rodarte, 73, of Vallejo Street, Niles, died at his home suddenly Sunday and was given final rites Wednesday afternoon at the Corpus Christi church with interment at the Holy Ghost cemetery under the direction of the Chapel of the Palms.

He is survived by his widow, Treña, and several children. He was a native of Mexico and had lived in this community for the past 11 years.

PASSES SUDDENLY  
AT WATSONVILLE

MISSION SAN JOSE — Final rites were said for Rosa Santos, 82, formerly of Mission San Jose and of Warm Springs, at the Chapel of the Palms on Tuesday. Mass was said at St. Anne's church and interment was at the Holy Ghost cemetery in Centerville.

The deceased passed away suddenly last Saturday at the home of her sister in Watsonville. She is survived by several children and grandchildren.

CAMP FIRE GIRLS  
HOLD ELECTION

IRVINGTON — New officers recently elected for Ocwasin group of Campfire Girls at Irvington are as follows:

Betty Corey, president; Dorothy Freitas, vice president; Sally Mayock, secretary; Georgia Cooper, treasurer; Jean Davis, flag bearer; Mable Enos, assistant flag bearer; Ebba Rae Benbow, scribe; Helen Griffin, assistant scribe; Myrtle Corey, song leader.

Centerville Man  
Weds Niles Miss  
Sunday Afternoon

NILES — Miss Lucille Mary Alves, daughter of Mr. and Mrs. A. M. Alves of Niles became the bride of Mr. Ruel Lawrence Brown, son of Mr. and Mrs. John Brown of Centerville at a ceremony performed at the Corpus Christi church Sunday afternoon.

A reception at the home of the bride's parents which followed the wedding was attended by 200 friends of the couple. They left Sunday night for a Southern honeymoon and will be at home to their friends in the Roland apartments on Second Street after Nov. 20.

The bride wore a white satin wedding dress cut on princess lines with square neck and long sleeves. Her veil which reached to the hem of the long train was caught with a coronet of orange blossoms. She carried a shower bouquet of orchids, lilies of the valley and gardenias.

The matron of honor, Mrs. Hortense Avilla wore rose taffeta with long bouffant skirt, short puffed sleeves and a square neck. She carried an arm bouquet of delphinium and pink bouvardia and wore a coronet of bouvardia in her hair.

The nuptial service was read by Father Francis McCarthy and the wedding music was by Mrs. Marguerite Crane, organist.

WORKSHOP GUILD  
WILL EXHIBIT TOYS  
MADE FOR CHILDREN

NILES — The Home Workshop Guild will hold an exhibit of more than 50 toys they have made or remodeled during the past few months, the articles to be displayed in a Main Street store in Niles next week.

After the exhibit in the toys, which range all the way from building blocks to wagons and wheelbarrows, will be turned over to the Centerville Welfare Club to be distributed at Christmas time to children in foster homes in Washington Township.

The last meeting of the club was at the home of E. F. Glassbrook and the next meeting will be at the home of Lawrence Avilla at Niles.

Community Dinner  
Will Raise Funds  
For Kiddies Party

IRVINGTON — Seventy members of the Irvington Parent Teachers Association attended a meeting at the school Thursday night, Nov. 3. Plans were made for a community dinner to be held at the Odd Fellows Hall on Dec. 10 to raise funds for a Christmas party for the children. The public is invited.

Mrs. Anne Mayock, president, presided at the meeting. Speakers were Victor Peterson of the Science department of San Jose State College who spoke on the relation of the school to the Parent Teachers Association and Sergeant Walter Hornbuckle, head of the traffic bureau of San Jose. Mrs. Peterson, president of the P. T. A. of the Roosevelt Junior High School in San Jose and Mrs. Hornbuckle were introduced.

Mrs. Mayock spoke regarding Amendment No. 20, urging a "no" vote on the single tax measure. Mrs. R. L. Pond reported on the recent Phoebe Hearst Council meeting in Castro Valley. Those representing Irvington at the council were Mrs. Pond, Mrs. Mayock, Mrs. Lee Williams, Mrs. Joe Silveria, Mrs. George Scammon, Mrs. Bessie Olace, Mrs. Raymond Benbow and Mrs. C. W. Moore.

New members received were Mr. and Mrs. John Williams. Mrs.
